Governance

A governance framework forming the foundation of your Power Platform program

What is Power Platform Governance?

Barhead evaluates customer's plan or current use of Power Apps and Power Automate within to propose a tailored governance framework. The scope covers technical and process components, from initial design to production support.

Why Barhead's Power Platform Governance?

Barhead is one of the first consulting firms to develop Power Platform capabilities establishing a strong link to Microsoft's engineering group. Along with an internal R&D team, they employ a service delivery framework that is purpose-built for Power Platform.

Unique Value Proposition

Power Platform Design Framework
Set the foundation to guide your organisation's uptake and use of Power Platform in a sustainable way while adhering to relevant policies, procedures and regulatory requirements.

Identify Future Business Needs
Work with a Power Platform team to identify your organisation's requirements for the future state of the Power Platform Governance Framework.

Power Apps and Power Automate Current State Review
Benefit from a high-level assessment of your organisation's current state of using Power Platform.
