Proof of Concept
Solution-ready design concept through Power Platform

What is Proof of Concept?
Barhead's Proof of Concept (POC) service demonstrates one or more aspects of the Power Platform's suitability to meet a client's use case.

Why Barhead's Proof of Concept?
Proof of Concept is part of Barhead's Power Platform Implementation Services. It allows clients to assess and validate the platform or solution approach before investing in implementation for a production-ready solution.

Unique Value Proposition

Research and Development
Develop apps and solutions using Barhead's Power Platform team and Microsoft's technology stack components.

Tenant Environment
A trial tenant or suitable development environment will be used for optimum capacity.

Manpower Efficiency
Maximise Barhead's expertise in Power Platform while completing POC activities and custom integrations.

Included Activities:

Power Apps
Canvas or model-driven apps

Power Automate
Automation or integration

Connectors
Custom connection to the external data source (via API access, including on-premise)

Power Apps Control Framework
Custom UI development
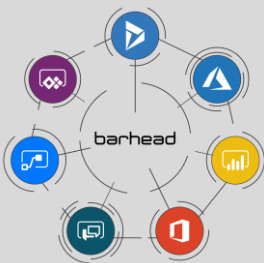

Typical Scenarios

- Validate solution approach before investing in full implementation.

- Drive innovation through Barhead's Power Platform team.

Business Outcomes

- ✓ Provides a cost-effective minimum build to demonstrate how key aspects of the platform can be leveraged for a viable solution approach.

- ✓ Receive a non-production ready solution in a development environment while it has not undergone quality assurance activities.

- ✓ Reuse some elements of the POC that are applicable for implementation.

Pricing

Fixed Price is based on fifteen (15) participants at AUD 20,000.

Barhead is a specialised consulting firm focused on delivering business solutions leveraging the strategic value of Microsoft Business Applications through Dynamics 365 and Power Platform. We believe that it is a combination of people, technology, and business drivers that underpin the most successful implementations.

Barhead provides global support for customers, providing deep expertise around:

Power Platform tools – Power Apps, Power Automate, Power BI and Power Virtual Agents.

Business solutions for standalone apps or apps that extend existing Microsoft solutions.

Pre-built solutions from Barhead's Research and Development team.

Deployment models, best practices and governance.
