Envisaging Engagement

Five-day engagement to modernise manual processes by using Power Platform

What is Envisaging Engagement?

Barhead offers a five-day engagement to facilitate an envisaging process to drive value by adding Power Apps and Power Automate to your business solutions. This aims to close solution gaps which replace paper or Excel based processes and/or to modernise legacy applications and processes.

Why Barhead's Envisaging Engagement?

Barhead's Envisaging Engagement is part of Barhead's Advisory Services which helps customers generate concepts and potential solutions with the "art of what's possible" with Power Platform. Customers will achieve a high-level blueprint including shared a vision and roadmap.

Unique Value Proposition

Review and Assessment
Review and state assessment of current business platform.

Ideas Inventory
Well documented ideation session to assess concepts, ideas and proposed improvements.

Highly Scalable Solution
Automate and improve business processes through Power Platform.

Session Topics:

Introduction Workshop

Ideation Workshop

Assessment and Follow-up
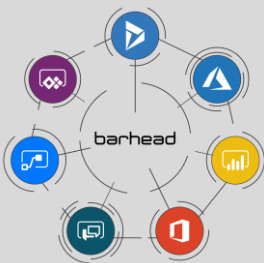

Concept Review

Typical Scenarios

- Repetitive processes in legacy applications.

- Manual and Excel based tasks.

- Misplaced business concepts and ideas.

- Time consuming process improvements and platforms.

Business Outcomes

- ✓ Inventory of prioritised business concepts.

- ✓ Well documented ideation session.

- ✓ Assessment of concepts for feasibility, complexity and sizing.

- ✓ Recommended next steps, timelines and actions for Discovery and/or Implementation services.

Pricing

Envisaging Engagement is delivered via Microsoft funding or for a fixed fee of AUD 15,000.

Barhead is a specialised consulting firm focused on delivering business solutions leveraging the strategic value of Microsoft Business Applications through Dynamics 365 and Power Platform. We believe that it is a combination of people, technology, and business drivers that underpin the most successful implementations.

Barhead provides global support for customers, providing deep expertise around:

| Power Platform tools – Power Apps, Power Automate, Power BI and Power Virtual Agents. | Business solutions for standalone apps, or apps that extend existing Microsoft solutions. | Pre-built solutions from Barhead's research and development team. | Deployment models, best practices and governance. |
