# Rapid App Development

Rapidly design, build and deploy Power Apps and Power Automate solutions in a short period of time

What is Rapid App Development?

Barhead offers the Rapid App Development approach for agile customers who are comfortable with designing, building and deploying solutions rapidly. A Minimum Viable Product (MVP) version of a Power Apps and Power Automate solution is delivered with core features and then iterated over time.

Why Barhead's Rapid App Development?

Barhead's Rapid App Development is part of Barhead's Power Platform Services, which provides global enterprise-level services for Power Platform-based tools, business solutions and deployment models. Barhead offers delivery models tailored to customers' specific demands.

Unique Value Proposition

Agile Project Delivery
Fast and nimble delivery of a solution specifically designed for customer requirements, the capacity of the delivery team is fixed and based on an agreed budget for a specified timeframe.

Low to Medium Solution Complexity
Works best for low to medium solution complexity, which is typical for a single business process or function.

MVP Solution
Achieve a minimum viable product (MVP) version of a solution with enough features to be usable by customers. Receive and provide feedback for future iterations with each sprint delivering a production-ready version and ready to be deployed.

Included Activities:

Design

Initial requirements and design validation

Build

Agreed capacity and budget for delivery

Acceptance and Deployment

Sign-off and go-live

Typical Scenarios

- Customer requirements are ready and detailed analysis and design are not required.

- Customer has completed a separate activity – Discovery, App Roadmap, App Assessment or other Power Platform Service to define the requirements.

- Customer is comfortable working in a short delivery timeframe and working in an agile manner.

Business Outcomes

- ✓ Shorter timeframe to achieve benefits of a working solution.

- ✓ Quicker solution deployment as concept and assumption validation works while building the solution.

- ✓ Avoid lengthy and unnecessary re-work.

Pricing

Rapid App Development is delivered via the standard burn rate, starting from AUD 38,000 per fortnight.

Barhead is a specialised consulting firm focused on delivering business solutions leveraging the strategic value of Microsoft Business Applications through Dynamics 365 and Power Platform. We believe that it is a combination of people, technology, and business drivers that underpin the most successful implementations.

Barhead provides global support for customers, providing deep expertise around:

Power Platform tools – Power Apps, Power Automate, Power BI and Power Virtual Agents.

Business solutions for standalone apps or apps that extend existing Microsoft solutions.

Pre-built solutions from Barhead's research and development team.

Deployment models, best practices and governance.
