

# Enable continuous innovation by taking control of your complex business processes

In today's rapidly evolving business landscape, change is the only constant..

Businesses need to embrace change to innovate faster, stay agile, and seize opportunities, all while managing risks and overcoming threats.

Mastering change in the world of SAP is mission critical for business leaders. Yet, navigating this complex landscape can be daunting, leading to inefficiencies and even downtime, costing considerable time and money.

Basis Technologies equips you with the market-leading solutions to take command of change across your SAP landscape, which is why we're trusted by many of the world's best performing businesses. We enable your business to power innovation, drive growth, and eliminate risk across the entire Lifecycle of Change, from discovery to delivery.

ActiveControl enables you to navigate complex SAP landscapes with seamless and effective change management, helping you to stay ahead of the competition by embracing continuous innovation while maximizing the value of your SAP processes. With ActiveControl, you can empower your business to own complexity, increase visibility and prevent failure.

## ActiveControl drives your business to:

### Own Complexity

*Break down barriers that disrupt your progress while enforcing compliance and best practice*

- ▶ ActiveControl enables you to manage change in even the most complex SAP landscapes with ease
- ▶ Promote collaboration among cross-functional teams for seamless change implementation
- ▶ Streamline change processes, reduce downtime, and support business continuity
- ▶ Ensure adherence to organizational policies and processes with ActiveControl's rules engine

### Increase Visibility

*Orchestrate change across your business to scale with stability*

- ▶ ActiveControl provides a holistic view of your entire change process, enabling you to make informed decisions
- ▶ Monitor the progress of change initiatives in real-time to identify bottlenecks and optimize workflows
- ▶ Improve transparency and communication across teams with real insights, fostering a culture of collaboration and innovation

### Prevent Failure

*Utilize real-time insights to ensure continuous improvements in change management*

- ▶ Identify and address potential issues early in the change process with ActiveControl's advanced analytics
- ▶ Implement best practices and learn from past experiences to continuously improve your change management strategy
- ▶ Proactively mitigate risks and avoid costly mistakes by making data-driven decisions
- ▶ Safeguard your critical systems with the ability to revert to a previous state using Backout functionality

## The key features of ActiveControl

Harness the full potential of ActiveControl, tailored to streamline change management and fortify business agility to power innovation, drive growth and eliminate risk.

### Streamlined Workflow

- ▶ Increase business agility with efficient SAP change processes
- ▶ Minimize the risk of manual errors with automated tasks
- ▶ Prompt users effectively to approve changes, reducing process bottlenecks

### Safe Release Automation

- ▶ Reduce risk of production outages with automatic deployment in the correct sequence
- ▶ Maximize resource utilization by automatically rolling back problematic deployments
- ▶ Synchronize changes across multiple development tracks for alignment

### Consistent Change Governance

- ▶ Manage and control change effectively across on-premise and hybrid SAP landscapes
- ▶ Ensure quality, regulatory, and compliance targets are met consistently
- ▶ Streamline access control and governance with automatic assignment of SAP user roles

## Efficient Integration

- ▶ Boost process efficiency and maximize the ROI of SAP systems with easy adoption of IT best practices
- ▶ Reduce costs and complexity of integrating with technical ecosystems
- ▶ Adopt modern IT best practices and integrate with popular development and testing tools

## Risk-Reducing Analyzers

- ▶ Improve quality and minimize downtime with automated analysis checks
- ▶ Highlight change conflicts and missing dependencies early, reducing foreseeable production issues
- ▶ Streamline approval processes by automating approvals based on successful analysis checks

## Insightful Audit & Reporting

- ▶ Highlight areas for operational improvement, promoting continuous improvement
- ▶ Reduce risk of errors when deploying changes by providing a sequenced build list
- ▶ Streamline auditing processes with readily available data and paper trails

## Integrate ActiveControl with your existing systems

ActiveControl is a flexible and scalable solution that adapts to your growing business needs and ensures robust security and compliance.

### Simple Integration

- ▶ ActiveControl integrates with ITSM applications like Jira, ServiceNow, Azure, and more
- ▶ Compatible with a wide range of SAP systems, including S/4HANA and ECC, enabling you to leverage your existing infrastructure
- ▶ Easy implementation and deployment lead to a faster return on investment

### Scales with your business

- ▶ As your business grows and your needs evolve, ActiveControl adapts to handle the increasing complexity in your SAP landscape
- ▶ Scale the solution to maintain peak performance and reliability, irrespective of the size of your organization
- ▶ ActiveControl's flexibility ensures that your SAP change management processes remain efficient and streamlined

### Robust Security and Compliance

- ▶ ActiveControl provides control over what changes can be made, enforcing procedural governance based on predefined rules and configurations
- ▶ Utilizes SAP user roles to automatically assign relevant permissions and access, thereby ensuring your business remains compliant with regulations
- ▶ Safeguard your sensitive data and critical systems, ensuring peace of mind

## Unlock your full potential with SAP

At Basis Technologies, we enable some of the world's best performing organizations to take control of change in SAP, from discovery to delivery.

Our industry-leading change management products accelerate time to value, whether you're conducting routine continuous development or largescale digital transformation to stay ahead of the competition. We're here to ensure that you can confidently embrace every change you make to your business, faster and for the better.

### **Power Innovation: Embrace Business Transformation with Confidence**

- ▶ Manage even the most complex SAP landscapes with ease
- ▶ Foster collaboration and streamline change processes for effective transformation
- ▶ Ensure adherence to organizational policies and processes

### **Drive Growth: Seize Opportunities for Competitive Advantage**

- ▶ Gain a holistic view of your entire change process for informed decision-making
- ▶ Identify bottlenecks and optimize workflows with real-time monitoring
- ▶ Enhance collaboration and transparency across teams

### **Eliminate Risk: Safeguard Critical Systems for Business Continuity**

- ▶ Identify potential issues early in the change process with advanced analytics
- ▶ Make data-driven decisions to proactively mitigate risks
- ▶ Safeguard your critical systems with the ability to revert to a previous state

# It's time to embrace change

---
