

OneVuex Unified Systems

Easily adapt to healthcare disrupters, adopt new technology that optimizes productivity, business results, and patient outcomes with greater insights and security at the speed of AI

Transformative AI for Greater Healthcare Outcomes

OneVuex transforms healthcare with advanced AI that connects Microsoft and other vendor apps and platforms, unifying data, content, people, and processes for greater insights and healthcare outcomes

OneVuex – For Healthcare Transparency

Healthcare systems operate in a world of disconnected silos of data, patient charts, and administrative records, creating productivity, collaboration, and security challenges resulting in compromised care and rising medical and operational costs.

OneVuex Unified Systems is an **AI powered digital knowledge network and productivity center** that intelligently integrates data, content, insights, contacts, and tech innovations, displaying combined results in a single interface. With OneVuex, **generate ideas and content faster, complete time-consuming tasks, and gain AI driven insights with advanced security incorporating Zero Trust strategies.**

Achieve **40% greater productivity**, confident decisions, and a workplace **adaptable to change.**

Powerful Integration

- **Create relationships between data** in different apps and platforms containing files, patient records, imaging, labs, data, etc., for greater insights and results.
- **Controlled accessibility and mobility** of cloud and on-premises solutions, including legacy systems.
- **Secure collaboration** for file sharing, team meetings, and patient consultations.
- **Achieve integrated security** across applications, platforms, systems, and cloud environments with Zero Trust architecture.

Powerful Teams

- **Adopt the latest in Cloud, AI, and other innovations faster and with greater ease.**
- **Employees are more productive and efficient**, focused on the task at hand and patients needs.
- **Gain controlled access** to all **information, contacts, and communications.**
- **Accelerate productivity and training**, with powerful search tools and Digital Subject Cards.
- **Get complete insights** with **integrated GenAI** that sources content in all connected systems.

Powerful System Search

- **Get controlled, intelligent global access and multiple search tools** that find all related content in a single search without remembering filenames.
- **Accelerate productivity and never lose content** with AI powered search tools, Digital Subject Cards, and Topic Pages that find and connect all related content and contacts.
- **Verbal or one-word requests** saves hours of unproductive time on multiple searches.

With OneVuex Unified Systems it's easier to **detect, predict, mitigate and respond** to healthcare issues, improving standards of care and patient outcomes.

What My Healthcare System Can Achieve With OneVuex

Picture this:

Innovation and productivity are challenging if you can't find, access, relate, or share information or easily integrate modern technologies.

You experience difficulties collaborating and getting a complete picture of patient and organizational insights.

You struggle with safety and security in apps, platforms, devices, and the organization.

With OneVuex Unified Systems and Microsoft Solutions

Achieve customized solutions, enterprise search, and collaboration:

- **Generate better ideas and transform care** with integrated apps, platforms and systems like M365, Microsoft Copilot, SQL, Oracle, IBM, EHRs, imaging libraries, admin systems, analytics, AI/ML, VR/MR, etc., specific to your needs.
- **Accelerate productivity and innovative patient care**, accessing, sharing, and processing all connected solutions (on-premises to cloud) with powerful AI.
- **Stop searching, just ask OneVuex** to find all related information using **AI, Digital Subject Cards, and Topic Pages** without remembering filenames or their location.
- **Witness minimally 40% greater productivity** with teams that collaborate across multiple environments, incorporating AI tools that produce comprehensive results.

Work smarter with greater vision anywhere on any device:

- **Work fluently across systems**, accessing all connected solutions with **controlled access** from a single interface and one log-in.
- **Collaborate anywhere** with an integrated view of systems, emails, shared calendars, and contacts synced across devices in real-time.
- **Achieve greater insights and transparency** with a complete view of the organization and patient records, with real-time analytics and business intelligence reports live streamed in custom dashboards.
- **Experience greater productivity** with **AI, Digital Subject Cards** and **automated Topic Pages** that connect related sources of information for quick accessibility.

Protect your organization at the speed of AI with Zero Trust Architecture:

- **Work safely**, managing content on most devices, assured that information in all environments is protected, on-premises to cloud.
- **Experience unmatched security** with the integration of multiple Microsoft security systems, including Microsoft Security Copilot – advanced security with AI and Zero Trust architecture, securing endpoints, end users, and infrastructure from on-premises to multi-cloud environments.
- **Protect all connected systems and devices** from cyberthreats like malware, phishing, ransomware, and viruses.
- **Monitor devices and people for added safety** with multiple layers of security, including geolocation.
