

Accelerate Innovation with Low Code

For companies who want to scale the Power Platform

Organizations are struggling to keep up with the pace of innovation.

**What are
CIO's
saying?**

Unlock Your Full Potential

The Microsoft Power Platform, when implemented to best practices, can enable you to build applications better, faster and smarter.

We can help you expand the power of low code to transform your business processes, empower your teams, **and accelerate innovation at scale.**

We Can Help You

Our three-phase approach will help you elevate your innovation journey with the Power Platform to achieve more.

Low-code is crucial in unlocking innovation and driving digital leadership.

Advisory / Strategy / Envisioning

2-hour Best Practices Briefing to review current state and identify ways to improve.

2-day Governance Workshop to establish a low-code program to drive innovation at scale.

Build & Launch

4-week Value Realization project to build and deploy a more complex and impactful solution.

Support & Enhance

Ongoing support and guidance to help you scale and govern your low-code solutions.

Let's Get Started

Lantern was born in the era of AI, a combination of three award-winning Microsoft partner companies that have driven innovation on the Microsoft platform for decades. Lantern boasts a Digital Studio Network that spans North America, offering complementary technical capabilities that can be quickly orchestrated and tailored to address business challenges of any size.
