Copilot for Microsoft 365

Readiness Assessment

Are you ready to unlock the benefits of AI?

AI is transforming the way we work, learn and communicate. AI can help us automate tasks, optimize processes and generate insights from data.

Copilot for Microsoft 365 is the first enterprise technology that enables every employee to easily utilize AI to do their job better, improve productivity and drive company performance.

But for Copilot to unlock these benefits, you need to get your Microsoft 365 environment ready.

LANTERN

Our Copilot Readiness Assessment Moves You Forward

Our Copilot for Microsoft 365 readiness assessment includes training & operational readiness best practices on adoption, change management, communications plans, and meticulously examines your Microsoft 365 setup to pinpoint specific areas requiring remediation. By addressing these areas, you can fully realize the benefits of Copilot for Microsoft 365.

- ☑ **Mitigate Risk** – identify weaknesses, vulnerabilities, and potential risks within your enterprise.
- ☑ **Boost Performance** – Evaluate how your systems, networks, and applications are performing.
- ☑ **Strengthen Security** – Keep your security measures current and robust against evolving threats.
- ☑ **Secure Identity and Data Governance** – Ensure user identities and access controls are secure to prevent unauthorized access and safeguard sensitive data.
- ☑ **Improve Employee Experience** – Find areas needing user training or adjustments for an enhanced employee experience.
