The Bauen Group

PowerApps Coaching Workshop

Let us help you with your Power Apps challenges. Bauen can assist in enhancing existing Power Apps components or by designing and creating new features within your completely custom 8 hour workshop.

You drive the agenda and our experts deliver results.

Performance Troubleshooting

- Review logs and assist in identifying problem areas

Security

- Review or create custom security roles
- Create customized field-level security profiles

Dataverse Customizations and Configurations for Existing or New Features

- Tables
- Columns
- Forms
- Views

Model Driven App

- Update Sitemap Navigation
- Create or modify Dashboard
- Customize Ribbon Bar

Power Automate Flow

- Setup basic Approval workflow
- Automate existing business process

Design and Build, as Time Permits

- Enhance error trapping within problem Flows
- Add new functionality to an existing Canvas or Model Driven App

Canvas App

- Link to new Power Automate Flow
- Add controls to existing App, such as Barcode scanner or Photo capture
- Design and apply Theme to existing App
