

# MAXIMIZE your Sitecore investment with Bayleaf's monthly managed services on Azure

FLEXIBLE PRICING, COST CONTROL AND GOLD LEVEL EXPERTISE

Bayleaf is a full service IT consulting company, specializing in the implementation and management of Sitecore solutions on Azure.

Silver Partner

Bayleaf removes the complexity of implementing, hosting, and managing Sitecore solutions by leveraging our Sitecore and Azure certified professional services team. We have extensive experience developing, hosting, and managing complex Sitecore solutions on Azure, including complex website search solutions utilizing Azure Cognitive Search, Coveo, Sorl, and Searchstax.

We provide a range of Azure infrastructure options for Sitecore, customized to suit your organization's desired service level, performance, redundancy, and budget requirements. All our Sitecore Managed Services include the implementation or migration of your Sitecore solution to Azure, ongoing management of all Azure infrastructure, and 24x7x365 monitoring and emergency response in the event of any service impacting issues, to ensure your Sitecore solution is always available.

Bayleaf also provides ongoing Sitecore Support Services consisting of further development, support, maintenance, and optimization services of your Sitecore solution.

## Bayleaf's FREE CMS Health Check

Take advantage of over 25 years of experience implementing complex CMS (Content Management Solutions) with our Free CMS Health Check developed to quickly identify problems and provide you with actionable recommendations.
