# Life-Data-Wisdom

# BCB Medical – Monitoring the quality and effectiveness of treatment

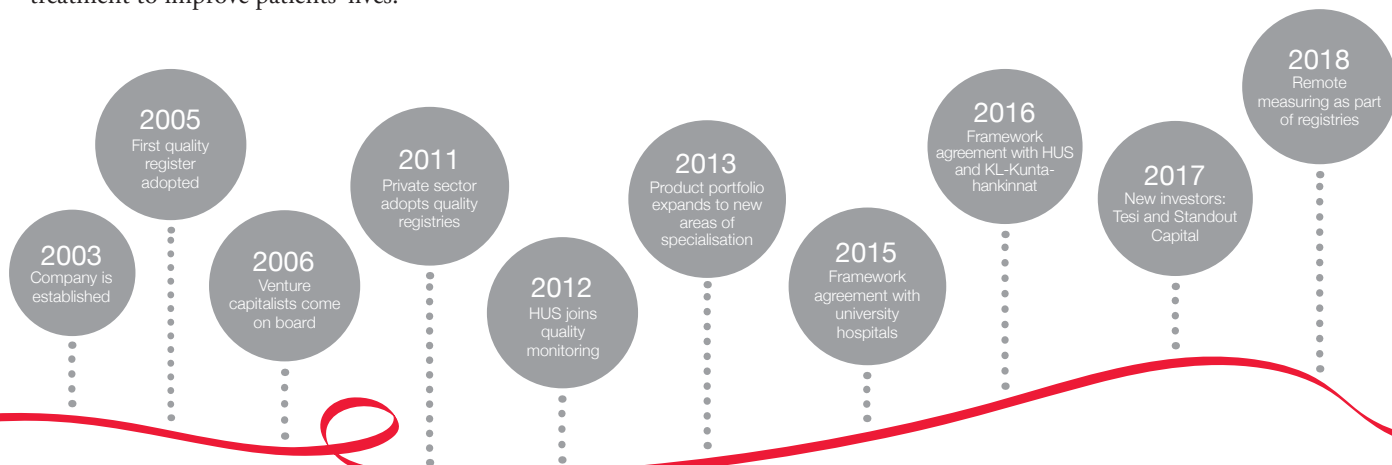

BCB Medical is the Scandinavian market leader in gathering and analysing clinical data.

Our mission is to combine, analyse and present clinical data gathered from various sources in an understandable format so that current and future generations can live healthier lives.

Our aim is to revolutionise the way clinical data impacts people's lives. We help doctors provide better care for their patients and help them develop new forms of treatment to improve patients' lives.

Our unique system consists of services aimed at healthcare professionals.

- Quality registers
- Intelligent integration platform
- Omavointi service
- 15D quality of life indicator
- BCB 360° information services

## BCB Medical in brief

Over 20 national registry meetings in a year
