

Connect How You Work

with Microsoft + Bond Consulting Services

Run Your Business Smarter with Microsoft Cloud

Bond Consulting Services (BCS) helps small and midsize organizations streamline operations, strengthen customer relationships, and unlock AI powered insights — all powered by the Microsoft Cloud.

Dynamics 365 Business Central

Move beyond basic accounting software with a connected ERP that unifies finance, inventory, and operations. BCS helps you streamline processes, gain real-time visibility, and scale confidently with Microsoft's modern, cloud-based ERP

Dynamics 365 Customer Engagement (CRM)

Build stronger relationships with connected sales, service, and marketing tools.

BCS helps you tailor Dynamics 365 to fit your team — turning customer data into meaningful action that drives growth and loyalty.

Microsoft Copilot

Bring AI into the apps your team already uses — from Dynamics 365 to Power BI and Microsoft 365. BCS helps you activate Copilot for Business Central, Sales, and Power BI to turn data into instant insights, automate daily tasks, and work smarter across every department.

Turn Microsoft Technology into Business Results

BCS helps you connect every part of your business — bringing Microsoft tools together so your teams can work smarter, faster, and with greater insight.

Ongoing Partnership, Unlimited Support

With **Unlimited Support by BCS**, you get ongoing access to Microsoft experts who help troubleshoot issues, optimize performance, and guide adoption without worrying about hourly fees.
