Secure Work from Anywhere Workshop 1 Day Workshop

# Secure Work from Anywhere Workshop 1 day workshop

- BCX-led engagement that's designed to introduce the value of Microsoft 365 to our customers. The workshop will help customers envision agile work scenarios and how to enable their employees to be productive, collaborative and secure using Microsoft 365 whether working onsite or remotely, including enabling Microsoft Teams, securing mobile access, and implementing foundational identity and security.

- **How can Microsoft 365 help your customers enable work from anywhere?**

  - Deliver meeting experiences to connect teams remotely and onsite

  - Simplify day-to-day work with apps and workflows

  - Sustain productivity and manage employee wellbeing

  - Connect people to drive culture, change, and communication

  - Enable rich device experiences for remote and onsite work scenarios

  - Manage and secure any device

  - Access desktops and applications from any device
