

Modern Work DNA: 5-Wk Assessment

Understand your current state and
envision your future state of Modern Work in today's
Hybrid work environment

What's the Value?

Our methodology to developing a modern workplace.

DESIGN

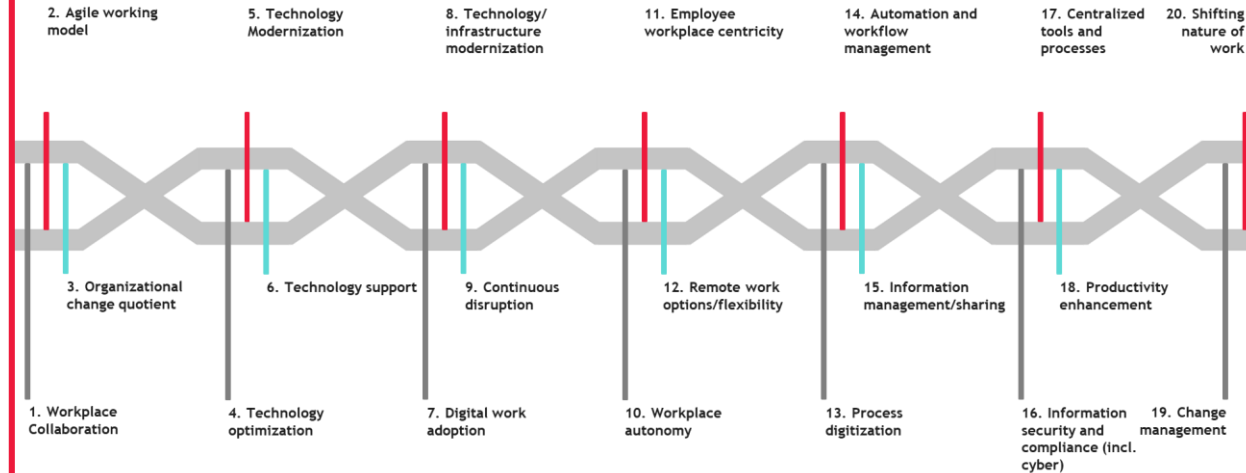

BDO LIXAR has developed a DNA model assessment to help clients understand their challenges in the workplace and identify ways to create a more collaborative and productive work environment.

PURPOSE

Help clients understand their future needs in a hybrid workplace.

VALUE

Identify gaps in the workplace and adopt new and efficient ways of working.

How does it work?

We follow a 3 step approach to help our clients understand their workplace needs.

1. CURRENT STATE ASSESSMENT

Conduct a diagnostic workshops using the DNA model to uncover gaps and challenges in the current workplace (incl. tools and processes) and identify areas of improvement.

2. FUTURE STATE DESIGN THINKING

Conduct an art of the possible sessions focused on the gaps, challenges and opportunities to showcase relevant case studies/tools and develop a list of solution options to address key pain points.

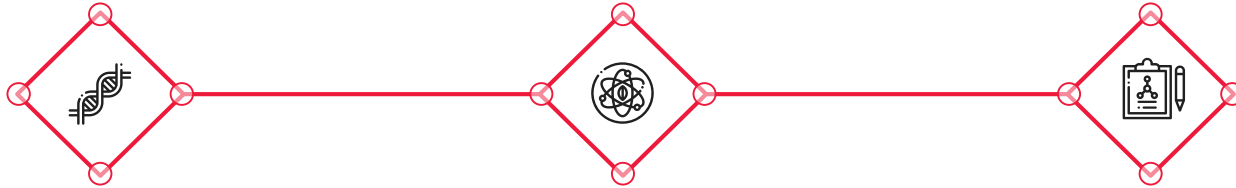

3. STRATEGY AND ROADMAP

Work with key stakeholders to assess each solution option and develop a roadmap based on prioritized key initiatives to enable the future state vision.

Modern Work DNA Deliverables

Our consists of the follow activities and deliverables.
