

QUICK AND EASY

EscrowAI™ Deployment

Nordic is the comprehensive delivery partner of BeeKeeperAI®

Nordic's end-to-end implementation, advisory, and managed services enables data controllers and processors to protect data sovereignty, patient privacy, and intellectual property with EscrowAI™ while developing and deploying trustworthy and responsible AI into the EHR and clinical workflows

TAILORED APPROACH

FLEXIBLE ENGAGEMENT MODEL

FULL SERVICE

The full-service Implementation and demonstration project management model allows the Data Controller and Processor to outsource the EscrowAI activation and the data curation related work for demonstration project. Project managers, engineers, and clinical resources will develop a project plan for activation, testing, deployment, and demonstration of EscrowAI's capabilities.

CLOUD MANAGEMENT

Create the Azure landing zone activation within the Data Controller's Azure tenant of the services and EscrowAI. Continue to manage and operate the landing zone.

DATA MANAGEMENT

Data extraction, mapping, data harmonization, and cohort development for the demonstration project.

PRE-DEFINED CONSULTING SUPPORT

Taking the lead from our customers, Nordic will allocate a set number of hours to provide technical, service, and/or process consulting related to the EscrowAI activation and demonstration project.

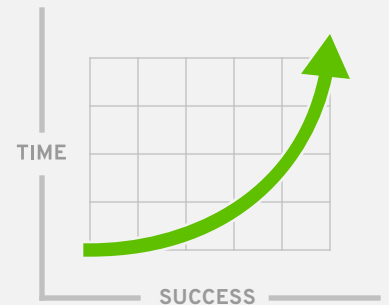

IF YOU WANT HONEY, DON'T KNOCK OVER THE BEEHIVE

MAXIMIZE THE VALUE OF YOUR INVESTMENT

Nordic is dedicated to ensuring the successful deployment and operation of the EscrowAI™ platform, with flexible solutions tailored to your specific needs. Whether your need a full end-to-end managed solution or you are managing it yourself, but just need limited services to support your journey, Nordic can customize a model to support your use cases with BeeKeeperAI.
