FXi migration and modernization for Microsoft Azure

App Migration and Modernization are surgeries on the very heart of your business. Decisions are complex and will have lasting impact – good or bad. For 15 years, FXi has been helping leading organizations transform their most critical applications, developing and executing their migration and modernization strategies to achieve the promise of the cloud: greater agility and resilience, cost-effective scalability and better user experiences. We help you become cloud-smart.

Assessment and planning

We start with a thorough assessment of your current environment to create a migration plan that aligns with your business goals and leverages Azure's capabilities.

Optimization and Execution

We evaluate and accelerate your cloud transformation on Azure, ensuring you get the best return on your investment and stay within budget.

Seamless migration

Our migration factory approach provides scale and near-real-time progress tracking of your migration and can leverage capabilities from your existing CMDB and application portfolio

DevSecOps Integration

We use DevSecOps and agile project management to deliver our solutions, keeping systems aligned to the pace of change in technology, policies and customer expectations.

Application Migration and Modernization with FXi

The **Migration Strategy** helps you understand migration & modernization options while reducing technical debt and refocusing resources from infrastructure administration to roles with higher value in your business.

Migration Execution enacts the strategy, moving workloads to preferred cloud infrastructure and modernizing applications to achieve the greatest value. We help you achieve this transformation while lowering costs and mitigating disruption.

Our high-level migration approach
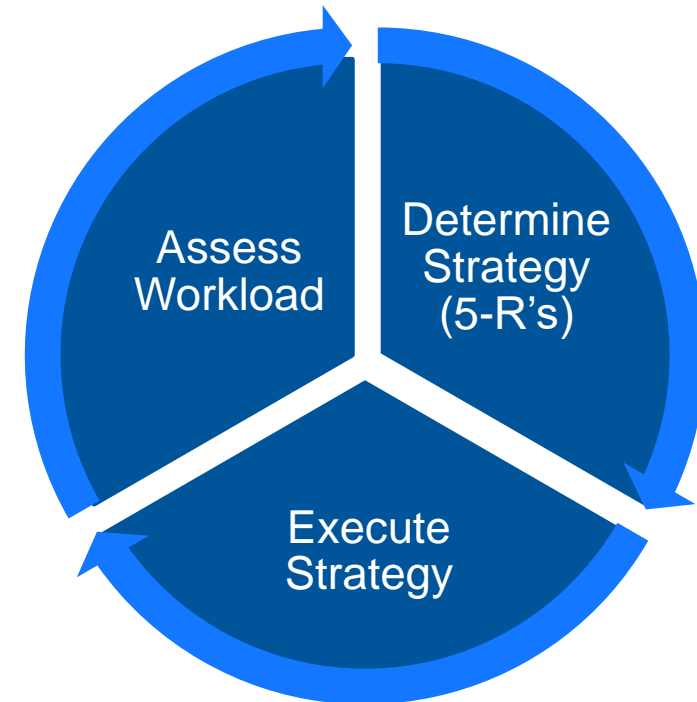

Assess your workloads:

1. Run Interviews with Technical and Business Teams

2. Agree on a migration path (i.e. IaaS, SaaS, PaaS)

**Determine your strategy**

1. Rehost, Refactor, Rearchitect, Rebuild or Replace

2. Capture functional and non-functional requirements

3. Produce Low-Level End state architecture

Execute strategy

1. Perform the migration

2. Operationalize workloads

3. Transfer to Operations or Managed Services

Assess Workload

Determine Strategy (5-R's)

Execute Strategy

FXi — A BELL CANADA COMPANY

Our Cloud adoption framework

Define Strategy

- Understand Motivations
- Business outcomes
- Business justification
- First adoption project

Plan

- Rationalize digital estate
- Initial organization alignment
- Skills readiness plan
- Cloud adoption plan

Ready

- Azure readiness guide
- First landing zone
- Expand the blueprint
- Best practice Validation

Adopt

Migrate
- First workload migration
- Expanded Scenarios
- Best practice validation
- Process improvements

Innovate
- Innovation guide
- Expanded Scenarios
- Best practice validation
- Process improvements

Ask about our $0 upfront cost migrations.

Govern

Methodology, Benchmark Initial best practice, Governance maturity

Manage

Business commitments, Operations baseline, ops maturity

Azure Migration Program timeline & financials

Week 1-2	Week 3-5	Week 5 and Beyond

Getting to know you

Understanding your business
- Run or review an infrastructure scan to understand your environment
- Review motivating factors, and business needs for a customized business plan
- Organize workshops to understand your businesses keys to success
- Get to know your technology stack

Planning your journey

Deliverables
- Build your migration plan and strategy (including Cost)
- Establish or Review your Landing Zone
- Develop the migration path (including architecture documents)
- Day 2 keys to success: Managed services to realize Operationalization

Migration & Management

Migrated Workloads into Azure:
- Work in conjunction with your IT specialists to migrate to Azure
- Participate in post-migration testing to ensure success criteria have been met
- Retrospective: Automation and Modernization Opportunities
- Complete cloud services management so your IT team can focus on cloud workflows and applications that require your attention.

As an MSP, FX has access and knowledge to the new AMMP programs at Microsoft.

All other Migrations need to be scoped – we have VM migrations starting from $100/VM.

FX offers flexible, scalable, cost-effective cloud expertise in all phases of your digital modernization and transformation.
