BeSight, Fashion Tech is Our DNA.

Microsoft Azure

ABOUT BESIGHT:

BeSight provides tech solutions in the Fashion & Luxury sector as enabling elements in an industrial context in constant evolution, characterized by an increasingly challenging time-to-market and specific business needs.

WHAT WE OFFER

BeSight is available as Software as a Service (Saas) in two versions, Now and YoDa. The platforms target an evolution to a real cloud-based model with a specific focus on core processes and capabilities for manufacturing companies in the Fashion & Luxury sector.

Natively designed to provide agility, BeSight framework leverages on Microsoft Azure capabilities and is developed in a modular, scalable and completely open perspective, to be able to integrate all the main departmental sector solutions, through use of API services.

Data analysis and insights, based on the daily use of the application, allow a dynamic improvement of the experience (even real-time) and suggest the implementation of new features for an increasingly productive utilization, by humans and by other enterprise applications.

A constantly evolving solution based on needs of its users, according to a continuous improvement model that provides different enterprise's departments with a constant adaptation of the technology to real needs, to support operations in a continuous modernization vision.

BESIGHT'S FASHION TECH DNA

"The deep knowledge of sector's logic and business processes is combined with the expertise of people with a tech DNA, in order to provide value in a complex market scenario, thanks to the constant listening of the opportunities that the technology itself makes available"

– Gian Paolo Piscopo, CEO, BeSight

BESIGHT

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
