- 1st Partner in Mexico in implementing Dynamics 365: Finance & Operations, Retail, Business Central and WMS (Advanced Inventory Management)

POWER APPS

Benefits of low-code app development

Increased development agility

Automate and enhance repetitive and time-consuming processes and reduce errors across your organization.

Speed & savings

Reduce time & cost building web and mobile applications, enabling you to get through your development backlog.

Efficiency

Effortless Dynamics 365, Office 365, and Azure integration. Remove your data siloes through low-code with Common Data Service and AI Builder.

Gartner estimates that **65% of all app dev** will be low code by 2024

Cloud and on-premises connectivity

Built-in connectivity to 300+ cloud services, content services, databases, APIs, etc.

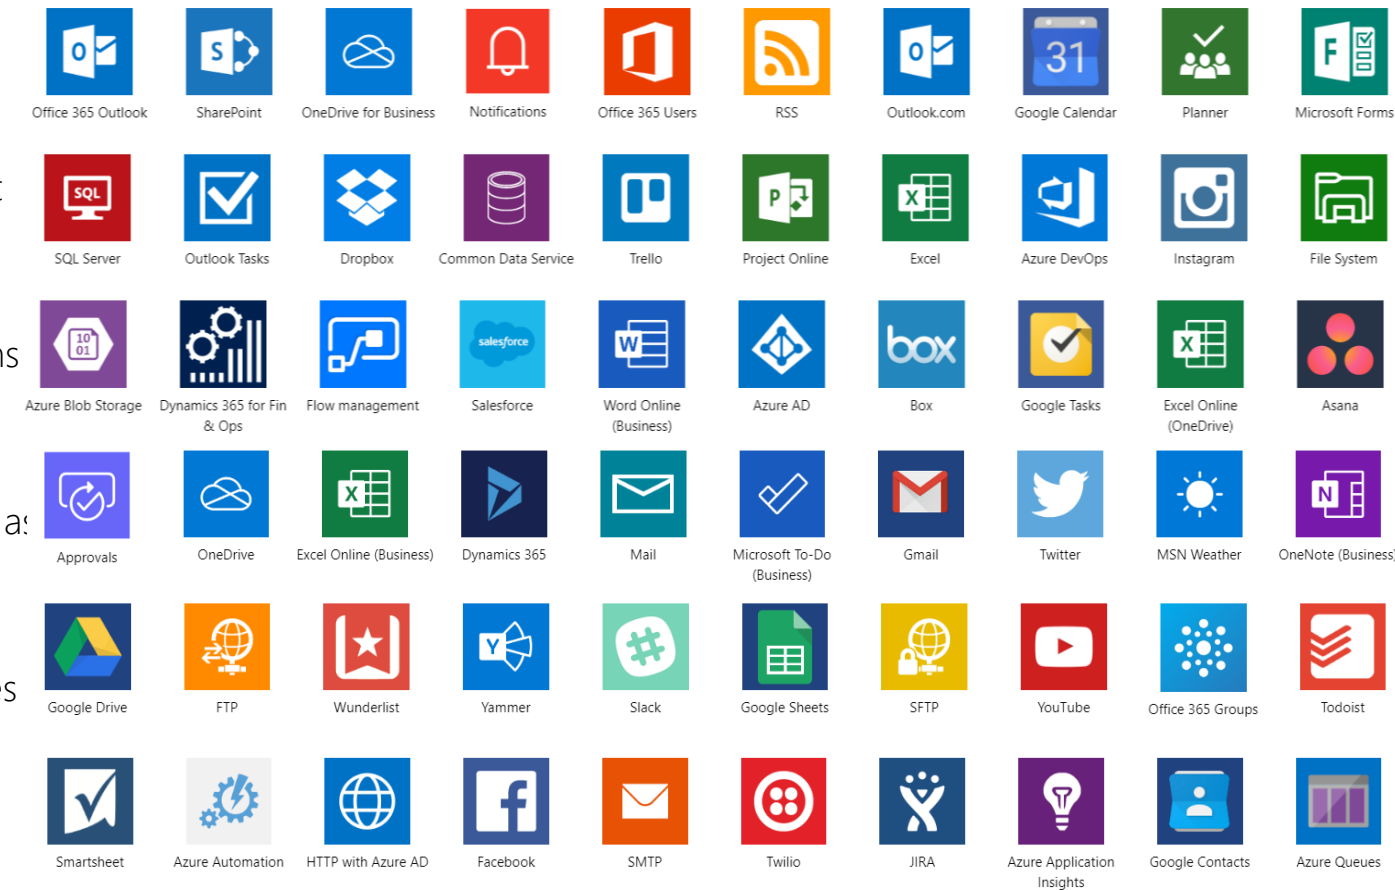

Seamless hybrid connectivity to on-premises systems via the on-premises data gateway.

Develop and register custom connectors as a building block for citizen developers.

Break down data silos by using multiple data sources in a single application.

Low-code solution for responsive websites with portals

Create multilingual, responsive websites to engage with internal and external customers, partners and employees.

Use anonymous access or any of the commercial or enterprise login providers like Microsoft Account, LinkedIn, Azure AD B2C and more.

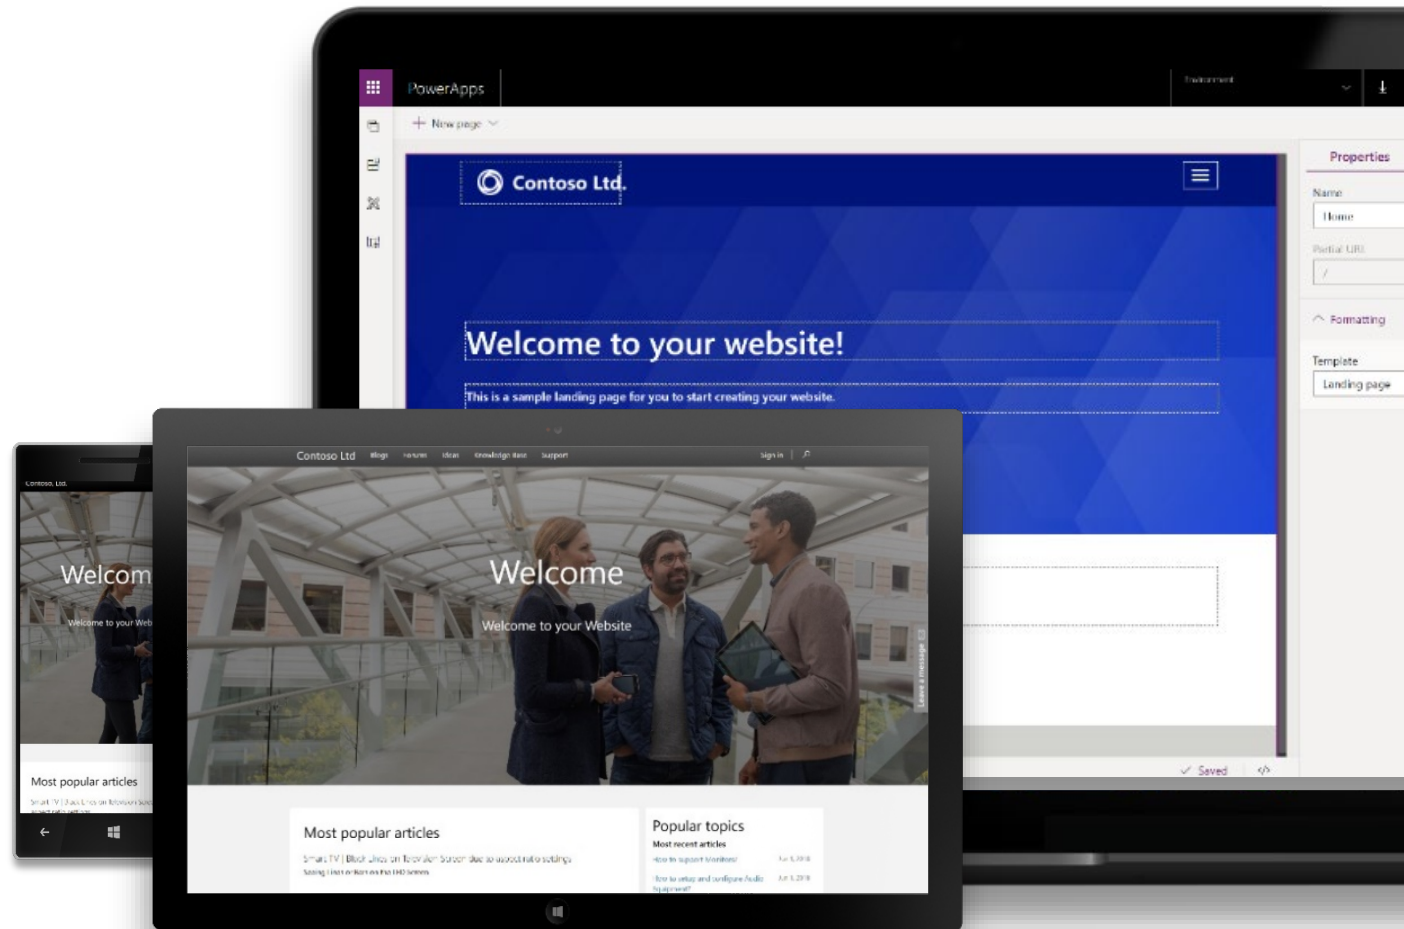

Use WYSIWYG designer to create website content and enrich with CDS/Dynamics data using familiar constructs like forms, views, charts, dashboards.

Pro-dev extensibility and templating capabilities to design complex business processes.

Dynamics 365 provides integrated starter templates like customer self service, partner management, event management and community self service.

Power Apps provides quantitative benefits for your organization compared to traditional development

70%

Less application development cost & effort

362%

Return on investment over 3-year term
