# CLOUD STORAGE SEAMLESSLY FROM DYNAMICS 365 BUSINESS CENTRAL

**CONNECTS BC TO YOUR CLOUD STORAGE** Choose your preferred storage: SharePoint, Azure Files, Blob Storage, or OneDrive. Keep your existing workflow – no changes required.

**EASY TO USE DROPZONE** Simply drag and drop files from your desktop to upload them to the cloud. No complicated steps, no extra clicks – just drag, drop, and store your files securely.

**CREATE CUSTOM CATEGORIES** Organize files into categories and work the way you are used to. Stay structured and find documents faster.

**MERGE AND EDIT PDF FILES** The integrated merge functionality allows you to merge and edit PDFs as you wish. Optimize your documents in just a few clicks.

**SEARCH ACROSS ALL FILES** Perform targeted searches using metadata in the fully integrated file search in the Beyond Cloud Connector. Find what you need—instantly.
