# Beyondsoft Copilot Security and Governance

## What we do

Beyondsoft Copilot Security & Governance Solutions deliver an enterprise-grade approach to securing and governing Microsoft 365 Copilot and Copilot Studio environments. Our offer combines advanced CIS Benchmark assessments, ongoing managed services, and proven methodologies for Power Platform, Microsoft Purview, Microsoft Defender, and Microsoft Entra to ensure your organization's Copilot adoption is safe, compliant, and optimized for long-term success.

### **Secure Posture Improvement**

Conduct in-depth evaluations of your Microsoft 365 Copilot, Copilot Studio, and Microsoft 365 environments to identify risks and compliance gaps.

### **Data Protection Policy Design**

Develop and implement robust data classification, DLP, and lifecycle management policies using Microsoft Purview.

### **Agent Deployment with Security**

Efficiently deploy and oversee Copilot Studio agents, supported by comprehensive guidelines and guaranteed compliance.

### **Managed Security Operations**

Provide ongoing monitoring, incident response, and policy management through Beyondsoft's managed services.

Flexible and customized program, tailored to each client's needs.

# Implementation Benefits

## Data Protection

Leverage Microsoft Purview and advanced security controls to safeguard sensitive information across Copilot, Copilot Studio, and Microsoft 365.

## Governance at Scale

Implement and manage clear policies, permissions, and controls for Copilot and Copilot Studio Agents.

## Executive Visibility and Insights

Access real-time dashboards and detailed reports for security, compliance, and usage metrics.

## Operational Assurance

Rely on Beyondsoft's managed services for 24/7 support, continuous optimization, and rapid adaptation to new security, compliance, and governance requirements.

## Compliance and Audit

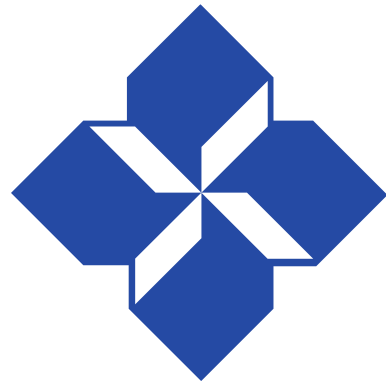

Achieve and maintain compliance with global standards through automated policy enforcement, audit trails, and regular reviews.
