

SAP on Azure by BGP

Cloud adoption and SAP managed services

BGP Management Consulting S.p.A

Innovation and Solutions

We will guide you through the cloud adoption path and strategy definition.

We will take care of the Azure infrastructure and the implementation or migration of the SAP workloads from end-to-end.

After the go-live, we will provide full technical SAP Basis support with a CIP (Continual Improvement Process)-based approach.

PLAN & DESIGN

Strategy and goals definition with customers

SAP sizing and capacity planning

AS-IS infrastructure assessment and TO-BE design

HA and Disaster Recovery scenarios design

DEPLOY, IMPLEMENT & CONFIGURE

Azure infrastructure building with up-to-date solutions

SAP installations and upgrades

DB/HANA migrations

S/4Hana conversions

Solution Manager configuration

Backup strategy design and implementation (Azure Backup, Commvault)

GOVERN & MANAGE

SAP landscape management and governance: incident, problem and change management

SAP Basis technical support and SAP Hana and DB administration

SAP monitoring

Infrastructure dynamic tuning and optimization, based on performances and real usage

Policy Management and Security Management

SAP Solution Manager As Managed Services

WHAT OUR CUSTOMERS ARE SAYING

“Thanks to the strong partnership with BGP, LATI is migrating the key features of its SAP infrastructure to Azure”

- LATI ICT Director

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
