Copilot for Microsoft 365 Assessment

Readiness Overview

This readiness assessment covers three key areas:

- Organizational profile
- Productivity and collaboration tools
- Data security and governance

The assessment is conducted by Big Green IT and will use a combination of tools, interviews, and surveys to collect and analyze data from stakeholders and Client's environment.

Copilot for Microsoft 365 Assessment Objectives

- Provide a clear and objective view of Client organizational readiness for Copilot for Microsoft 365.
- Identify and prioritize the gaps and risks that may affect Client's Copilot for Microsoft 365 deployment and adoption.
- Provide Client with actionable recommendations and best practices to address the gaps and risks and achieve their goals with Copilot for Microsoft 365.
- Enable Client to plan and execute a successful deployment and adoption of Copilot for Microsoft 365.

Copilot for Microsoft 365 Assessment Deliverables

- A readiness scorecard that shows Client's current level of readiness for each area and the overall readiness for Copilot for Microsoft 365.
- A gap analysis that identifies any issues or challenges that may impact Client's Copilot for Microsoft 365 deployment and adoption.
- A roadmap that outlines the recommended steps and actions to address the gaps and achieve Client's desired outcomes with Copilot for Microsoft 365.
