

Windows 365/AVD Assessment

Big Green IT Windows 365/AVD Assessment

Each Microsoft Windows 365 / AVD Assessment begins with a comprehensive assessment, during which our team evaluates the existing environment, and provides recommendations for performance, scalability, and resilience.

Assessment

Implement

Optimize

Windows 365/AVD Assessment Objectives:

- Determine desired end user experience when accessing virtual desktop environment.
- Define access to organizational apps and data.
- Design management strategy for new environment.
- Create a deployment plan.

Deliverables

Big Green IT will develop, present, and deliver the following as part of this project:

- Completion of milestones as listed.
- Assessment Findings and Recommendations report.
- Optional Execution Document. (additional cost)

\$4,800*

*Price dependent on size of network and amount of devices.

Windows 365/AVD Assessment Milestones

Discovery & Planning

Validate the necessary M365 licensing and/or Azure subscription(s), conduct an existing environment discovery, validate the Microsoft 365 and/or Azure tenant, identify deployment objectives, review network topology, define an endpoint management strategy, and assess Client connectivity options.

Discuss & Plan

Decide between Azure Virtual Desktop or Windows 365 Enterprise, establish Azure infrastructure requirements for the landing zone, design the Cloud PC / AVD solution, and outline the rollout plan.

Project Completion

Review project deliverables, acknowledge project completion acceptance, and maintain comprehensive project documentation and status updates.
