

Smart Utilities for Dynamics 365 Business Central

A suite of utilities to fill the gaps in the performance of Microsoft Dynamics 365 Business Central. Simple, out-of-the-box enhancements to solve common challenges and streamline your workflow. These products offer more robust features to allow your business to increase operational efficiency and effectiveness around specific business processes and workflows with built-in dexterity.

Accounts Receivable and Collections Management

Built to take control of accounts receivable and collections management. This system fills the gaps in Microsoft Dynamics 365 Business Central by putting your accounts team in the driver's seat. Introduce flexibility and insight to your processes with tools that allow you to quickly access the information you need to make strategic decisions based on a customer's payment history.

Dimensions Manager

Built to handle the often-cumbersome task of fixing incorrectly posted dimensions in your system. Gives you a new shortcut, global dimensions, and a complete instant history, allowing your team to modify any update or transaction with updated dimensions effortlessly.

Shipping Connector

An efficient solution that connects your chosen shipping provider with Dynamics 365 Business Central to give you the quickest, smartest shipping solution on the market. Use the connector to communicate address and shipping details between the two systems, then receive tracking numbers and exact freight charges back to Business Central in real time.

1099 Toolkit

Essential for any organization processing numerous 1099s during the hectic month of January. Gain the ability to process, prepare and print from within Microsoft Dynamics 365 Business Central. Reduce your team's frustration and reduce manual workload with the only tool available to handle the 1099 process end-to-end from within your ERP.

Easy Ship

A powerful shipping module that enables Microsoft Dynamics 365 Business Central to communicate directly with parcel, freight, 3PL's, and consolidators for a complete enterprise shipping solution.
