# Guarantee your long-term success with help from our subscription billing experts

## Dynamics 365 Finance RevRec to Subscription Billing migration service

As subject matter experts in the subscription management domain, we are actively working with Microsoft and system integrators to help customers migrate from RevRec and implement Subscription Billing in Dynamics 365 Finance..

Our migration utility and service offerings are designed to reduce risk of project failure and unexpected delays, while tailoring the Subscription Billing solution to your needs.

“

Because of their alignment with Microsoft, Binary Stream makes working together feel effortless. Not only do they support Dynamics 365 Finance with innovative solutions, but their growth mindset means they empower our customers with highly scalable solutions for modern finance that can handle the complexity of XaaS billing.

**April Olson, Head of Product, Dynamics 365 Finance**

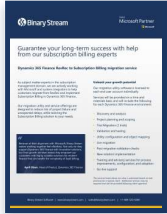

### Unleash your growth potential

Our migration utility software is licensed to each end user account individually.

Services will be provided on a time and materials basis and will include the following for each Dynamics 365 Finance environment:

- Discovery and analysis
- Project planning and scoping
- Trial Migration (2 trials)
- Validation and testing
- Utility configuration and object mapping
- Live migration
- Post-migration validation checks
- New solution implementation
- Training and advisory services for process improvements, configuration, and adoption
- Go-live support

*The services listed above are what is estimated based on best practices for a typical client. Additional services may be required and can be provided following client approval.*
