

Online learning and modular curriculum in Teams

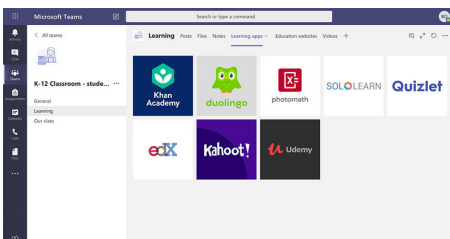

Establish consistency of education for all students with automated, template-based classroom teams at scale including channels, assignments, student rosters, and more.

Solving Microsoft Teams adoption challenges in education:

bindtuning.com/education

- ✓ Automate the creation of teams with standardized course content
- ✓ Maintain course repositories for reuse
- ✓ Consolidate best practices and curriculum into reusable templates
- ✓ Make new digital classroom deployments and updates easier
- ✓ Greatly reduce costs while investing in innovation

Templates per course

Deliver excellence and consistent learning to students, from class to class, grade to grade, with templates that draw upon the experience of your best educators.

Integrated with SDS

Works with School Data Sync and selected AAD groups. Filter and select groups for the new classes and see deployments at scale run "automagically".

Evergreen teams

Keep your templated classrooms up-to-date with the ability to add new content to classroom teams. Benefit from reduced IT overhead, speeding up deployment while lowering costs.
