

Blockchain Consulting & PoC : 10 Weeks

Discover right scenarios for blockchain implementation in your organization and get the proof of value

Overview of the Offering

Birlasoft Blockchain Consulting and PoC service is designed to help you identify the challenges in your organization where Blockchain technology can be rightly used to address those challenges. We enable you to create market-ready Azure-based Blockchain solutions. Our expertise in writing smart contracts increases your success rate by reducing the time taken for blockchain use case identification and implementation. We begin with an understanding of your aspirations, followed by a practical PoC application of Blockchain technology. Our goal is to bring the right combination of capabilities to your unique infrastructure and strategic vision. We are led by experienced visionaries in the Blockchain domain and backed by experienced Azure Blockchain Services (ABS) architects and developers that brings extensive experience with them.

How it works

- **Step 1: STRATEGY & PLANNING** → Understand your existing business processes, identify your organizational aspirations, understand your organization's pain points and motivation factors behind the transformation
- **Step 2: READINESS** → We engage with relevant business units and apply a Proof of Value (PoV) framework to identify the use cases
- **Step 3: PROOF OF CONCEPT (PoC)** → Deploy PoC on Azure Blockchain

What to Expect

- Identification of right use case for Blockchain framework
- Our value engineering framework
- Blockchain network design and integration with the existing system
- Deployment of Blockchain PoC network over your IT infrastructure and a roadmap for the production environment
