Microsoft Cybersecurity Workshop

Which topic would you like to delve into with us? We will give you an overview and show you approaches on how to tackle the challenge.

Security Operation Center | SOC Strategie: Make or Buy?

The majority of Swiss SMEs have no way of establishing and ensuring cybersecurity themselves. BitHawk offers the solution. With the service around the Security Operations Center (IT security center) - in short: SOC service. With this option, small and medium-sized enterprises can increase their cybersecurity maturity level and ensure more security.

Agenda

- Introduction Cybersecurity and SOC (Security Operation Center)
- Technical SOC architecture with Microsoft solutions
- Running a SOC successfully
- BitHawk as a partner
- Questions & Answers

What are the benefits of Microsoft 365E5?

The Microsoft365 E5 plan includes the following security features:

- Microsoft 365 Defender
- Microsoft Defender for Endpoint
- Microsoft for Identity.

We will be happy to provide you with an overview of the scope of the license and the benefits that the individual functions offer you.
