Step 1: Download the Backupify Converter Tool and after opening it, go through the instructions displayed in the software panel. Once you are done with the instructions, click on the **Next** button.

Step 2: If you wish to upload individual files, click on the **Select Files** option or if you wish to upload folders, click on the **Select Folders**.

Step 3: After selecting the file/folder, you can see its location in the software panel. Once you have selected the required files/folders, click on the **Next** button.

Step 4: Tick the required files and click on the **Next** button.

Step 5: Select a saving option from the given list of file formats.

Step 6: You can also choose to **Split PST** depending on the size of files you wish to split them into as per your requirement.

**Step 7:** Choose a destination path to save the converted files by clicking on the **Folder** icon.

Step 8: Choose a file naming option for the converted files.
