### How to Import Google Takeout Mailbox to iCloud?

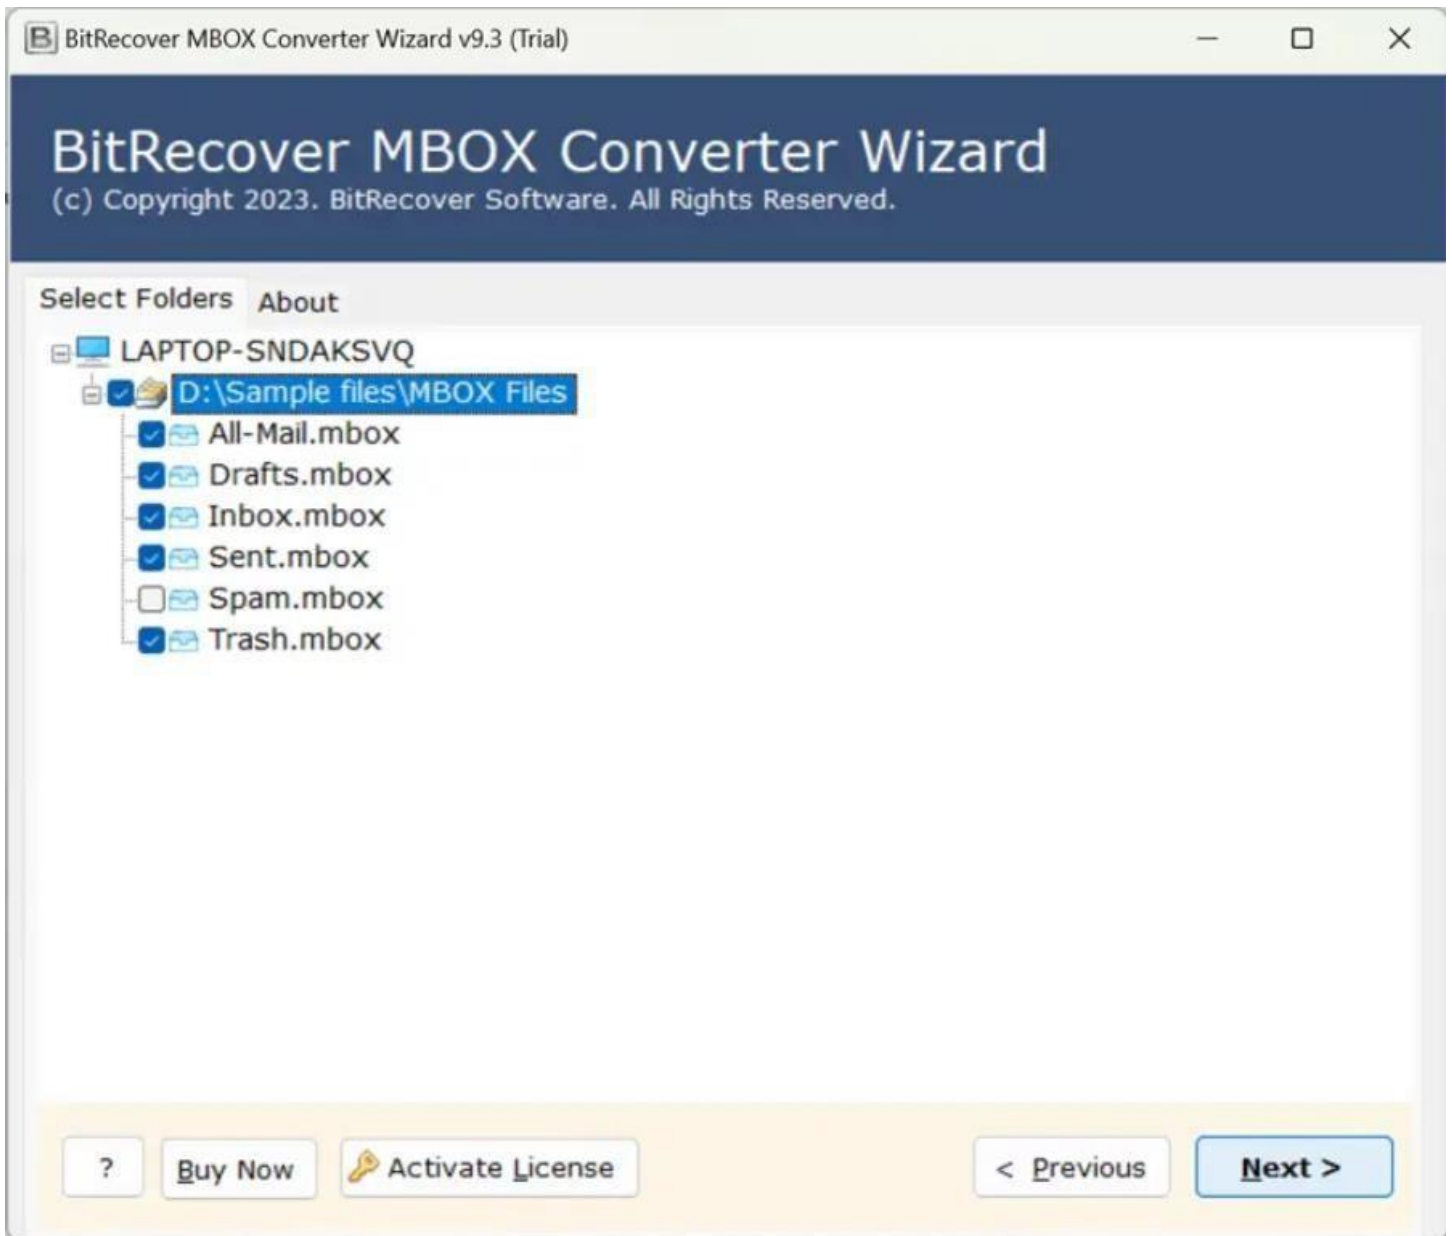

**Step 1: Download** the Google Takeout to iCloud Import Tool and after opening it, go through the instructions displayed in the software panel and once you are done with the instructions, click on **Next** button.

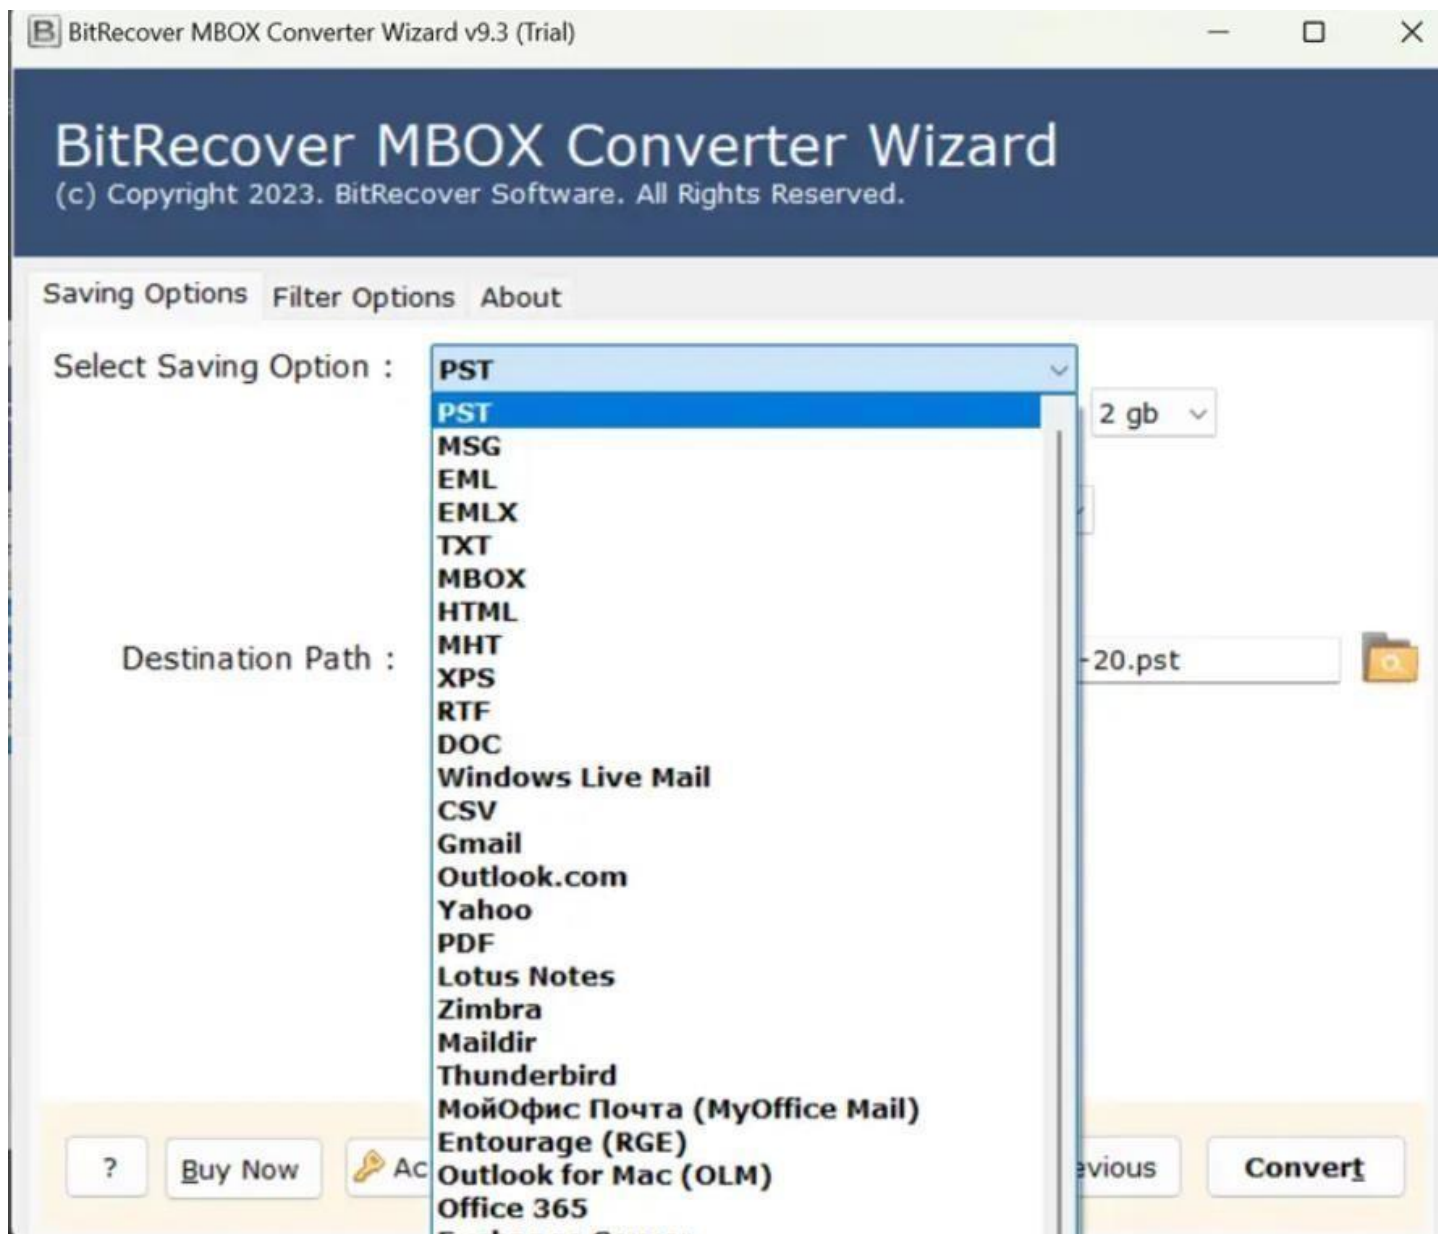

**Step 2:** The software provides you with two options i.e. **Select Files** to select individual files or **Select Folders** to select a whole folder.

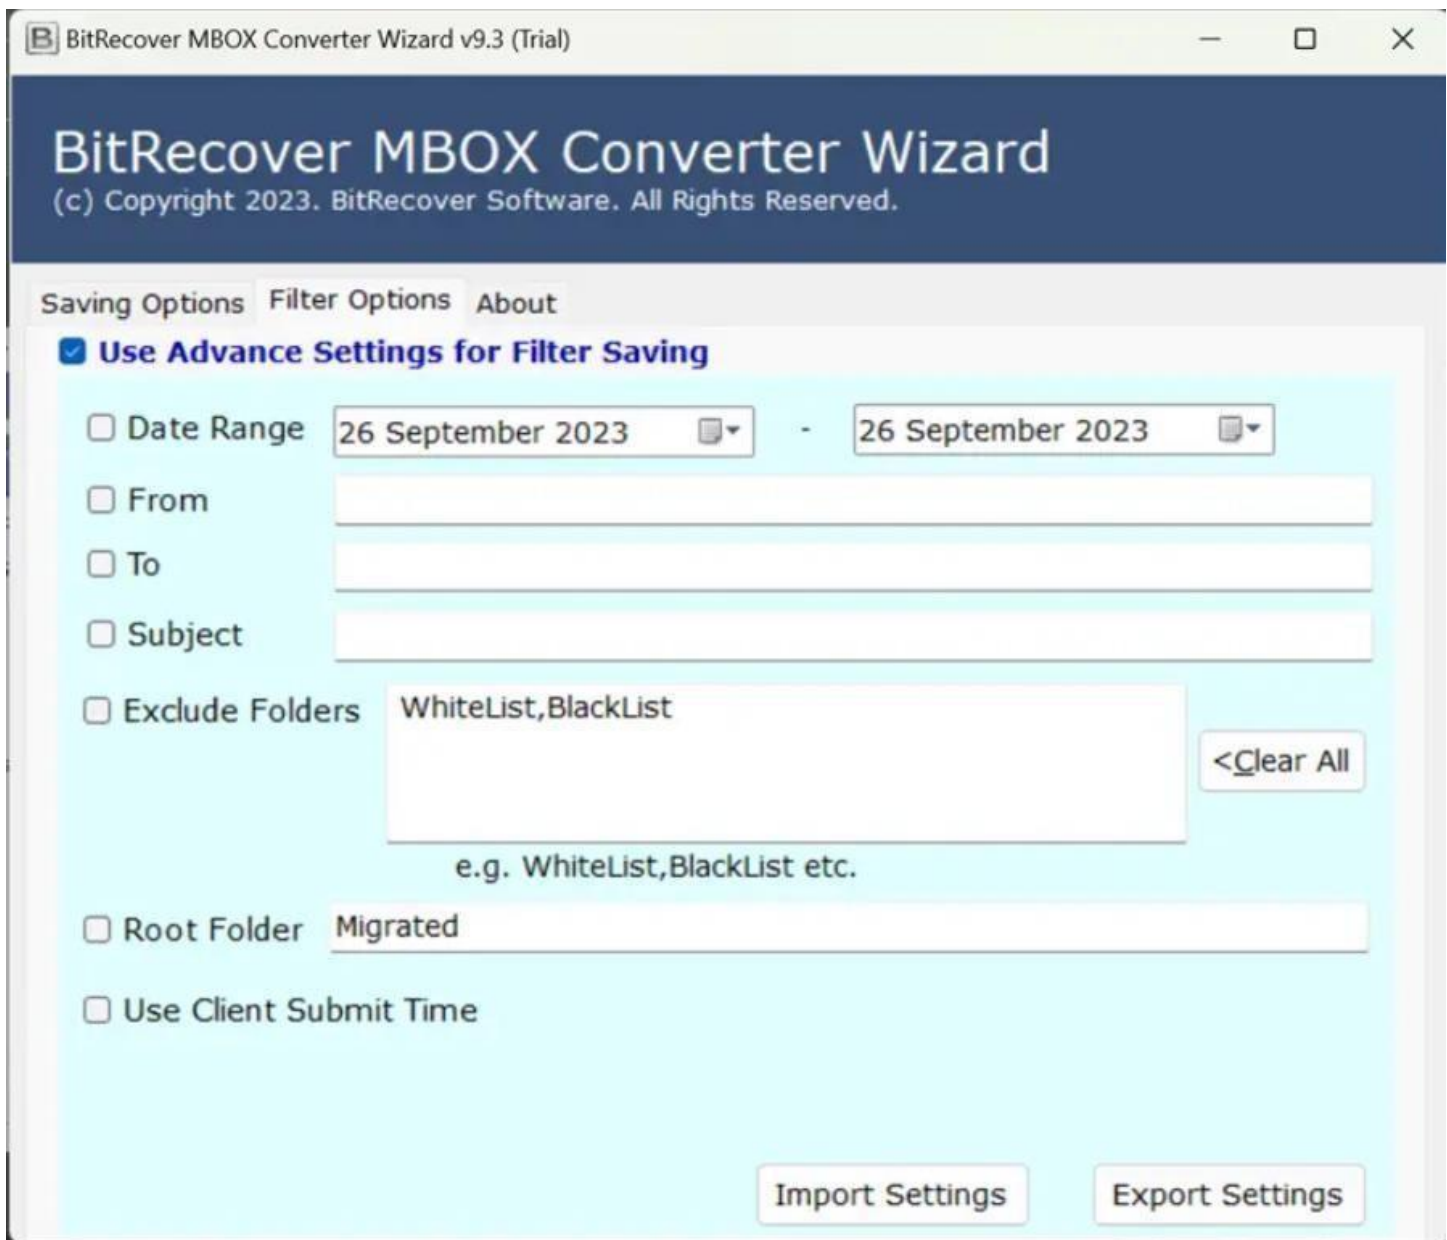

**Step 3:** Upon selecting a folder, the software will display you all the content present inside it. **Tick** the required ones which you wish to convert and untick the rest. Once you are done with this, click on **Next** button.

**Step 4:** Select a saving option as IMAP from the given list of 30+ saving formats.

**Step 5:** You can also use the **Filter Options** to apply specific filters for conversion of the files as per your requirements.

**Step 6:** Choose a destination path for saving the converted files by clicking on the **Folder** icon and then click on the **Convert** button.

By following the above 6 steps, you can efficiently convert your Google Takeout files into iCloud as well as other various formats using the Google Takeout to iCloud Import Tool. A notable feature of this software is its advanced search option, which basically allows you to locate specific emails within your Google Takeout files before conversion ensuring precise and targeted processing.

## Conclusion

Thus, whether you are migrating to a new email client or need to access your emails in a different format, this tool offers a reliable and user-friendly solution making it an essential tool for anyone dealing with Google Takeout files across different platforms. Additionally, the tool supports both single and batch conversion modes, allowing you to process multiple files simultaneously, saving time and effort as well as enhancing productivity and flexibility in email management.
