The moment MDaemon email migration completes; the tool pops up a confirmation message with migration status and output saving location. Thus, the user simply needs to click on the OK button to close the notification.

Conclusion

This MDaemon to PDF converter is a standalone software that does not require the installation of any email server or plugin. Furthermore, this utility comes with a trial version that allows the user to seamlessly convert the first 25 MDaemon emails of each folder for free. Therefore, once the user positively explores the interface and features of this advanced utility, they can buy the pro license and activate it using the activation key shared on the registered email address.
