Step 1: Download the MSG Duplicate Remover Tool and open it. If you wish to upload individual files, click on the **Select Files** option or if you wish to upload folders, click on the **Select Folders** option.

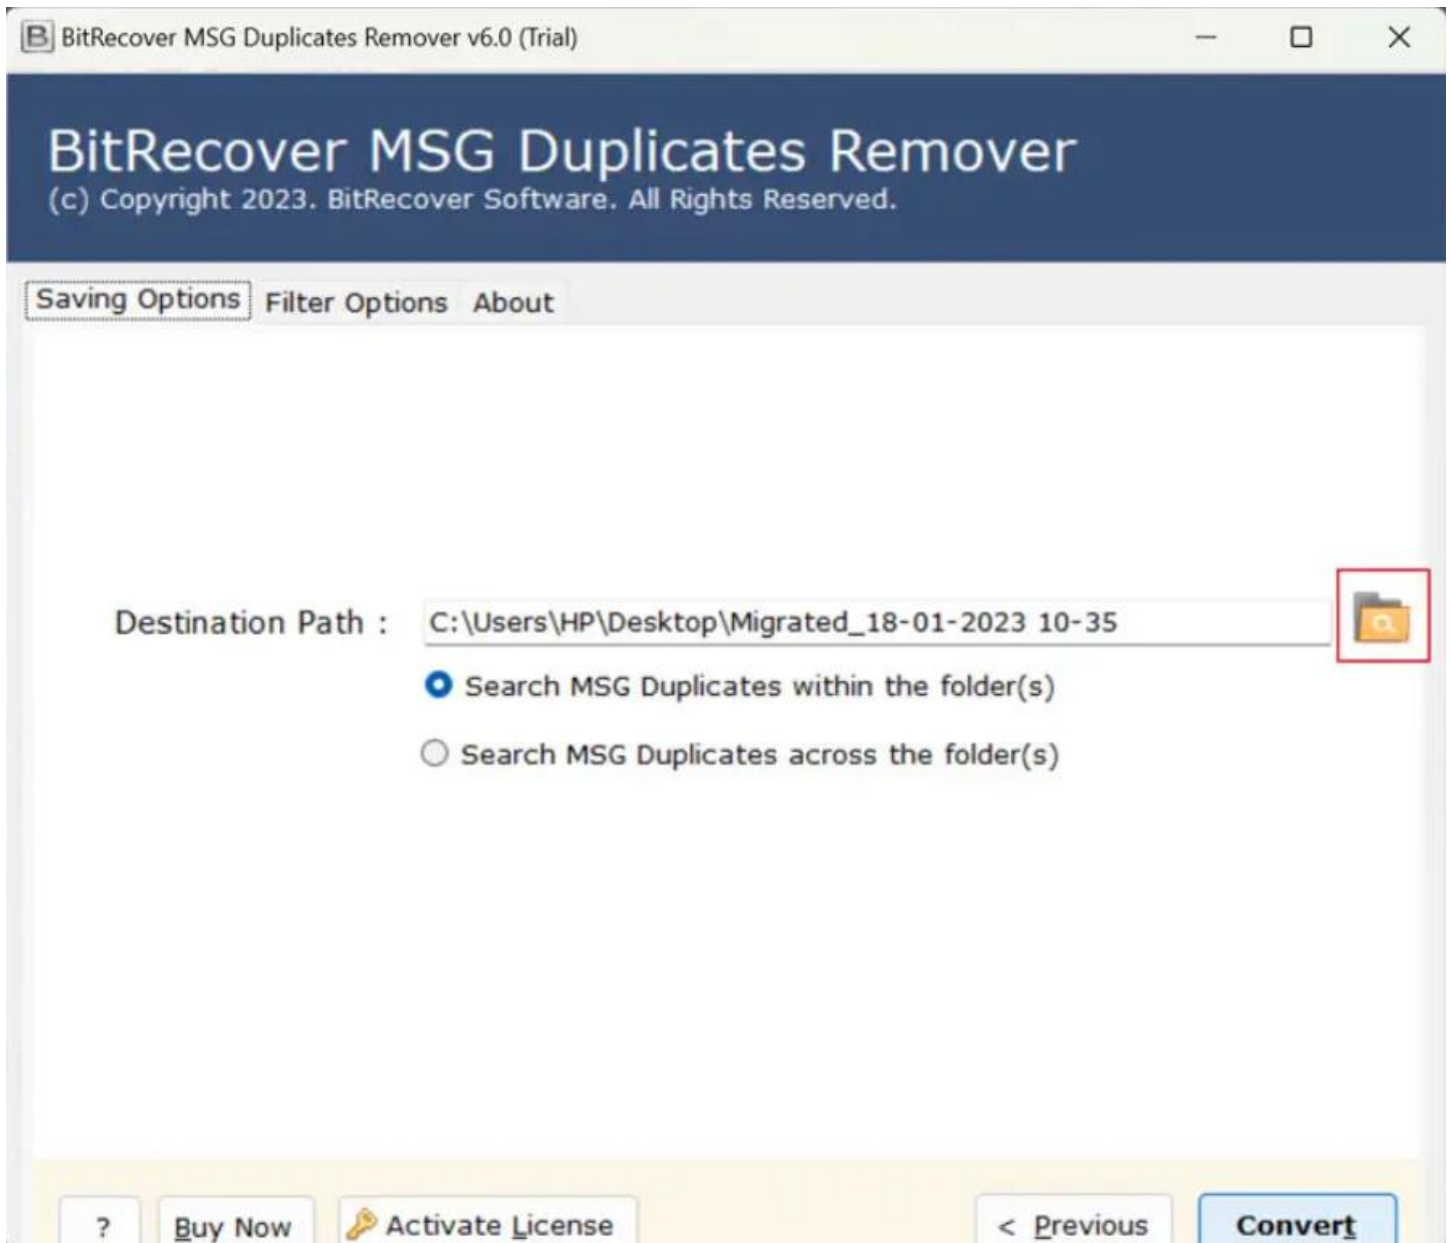

Step 2: Tick the required files/folders and click on the **Next** button.

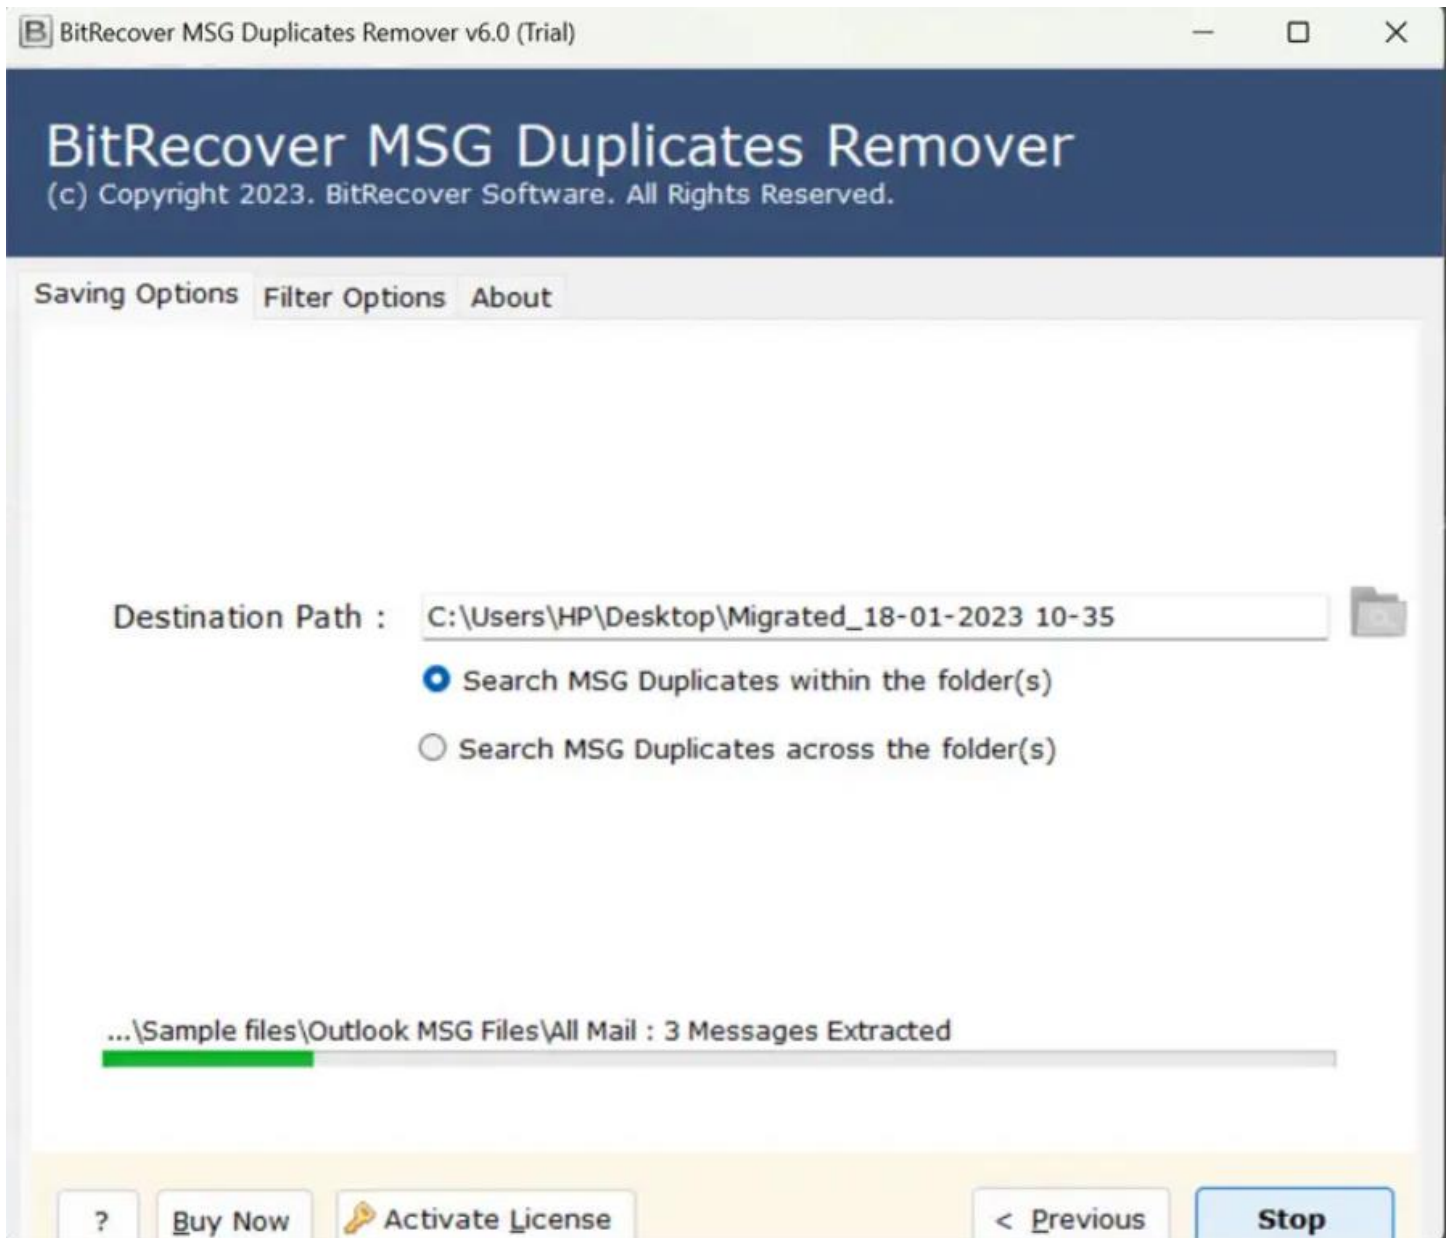

Step 3: If you wish to search MSG Duplicates within a folder or outside the folder, you can simply use the options provided in the software panel.

Step 4: Choose a destination path by clicking on the **Folder** icon to save the resultant data.

Step 5: Let the software complete the removal process. You can also see the live progress report in the software panel itself.

By following the above 5 steps, users can efficiently eliminate duplicate MSG emails using this MSG Duplicate Remover. The software's intuitive interface allows for easy selection of MSG files or folders, and it provides advanced filters to remove duplicates based on criteria such as dates, sender, recipient, subject and message body with attachments. Its batch processing capability ensures that even users with extensive collections of MSG files can manage the deduplication process seamlessly.

Conclusion

Thus, this MSG Duplicate Remover provides a reliable and efficient solution for removing duplicate items from MSG files. Its user-friendly design, combined with features like advanced filtering options and batch processing, ensures that users can perform the deduplication process with ease and precision. By maintaining the integrity of your data and optimizing storage space, this tool is ideal for both individual and organizational use.
