Adopt

Migrating to the cloud is not just about improving scalability and security. It's also about improving your financial resilience by shifting from a traditional upfront expenditure to a more flexible pricing model.

Atqor will help in adopting the most optimized Cloud Adoption Plan for smooth transition.

Migrate

We will help migrating to the cloud following the process of Assess, Migrate, Optimize, and Secure & Manage.

Innovate

We take advantage of cloud-native technologies and modernize solutions.

Afraid of Security & Compliance? Governance is a big, intimidating topic. Establish proper scope by mitigating tangible risks through corporate policy. We at atQor has one objective, to create Balance. Fulfilling customers governance model through Control & Stability, achieving speed & result.

Govern

🌣 Manage

Governance is a team sport. We as a teamresolve by decomposing corporate policy changes into three actionable disciplines.

We Manage outlines on how to establish tooling for a management baseline.

- Security Baseline: Ensure compliance with IT
- Inventory and Visibility: Create an inventory of assets across multiple clouds
- requirements.

 2 Resource Consistency: Streamlined

management with accelerated deployment.

- 2 Operational Compliance: Ensure each state is properly configured and running in a well-governed environment.
- 3 Identity Baseline: Ensuring Baselines applying Role Definitions and Assignments.
- Protect and Recover: Ensure all managed assets are protected and can be recovered using baseline management tooling.
