

Simplified Business Administration

2019

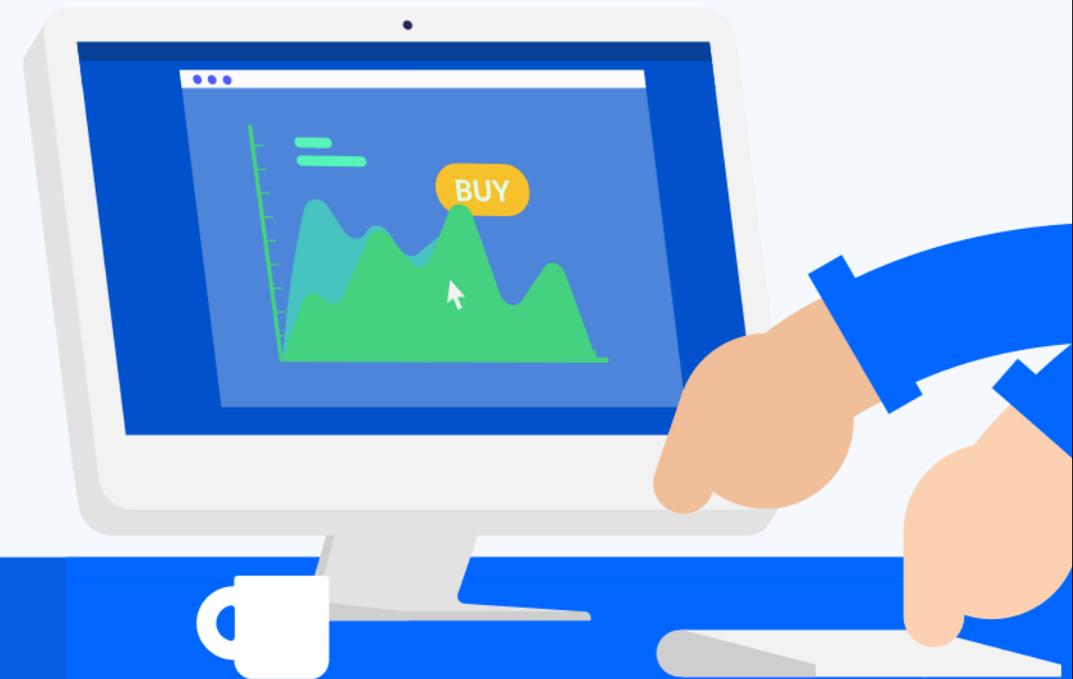

Easier to Run a Company

- ✓ Time saved on administrative tasks, so you can focus on your core business
- ✓ Updated company overview: collect and store all legal and company documents in one place
- ✓ Easier to communicate with management, board and shareholders

Manage Investments in Private Companies

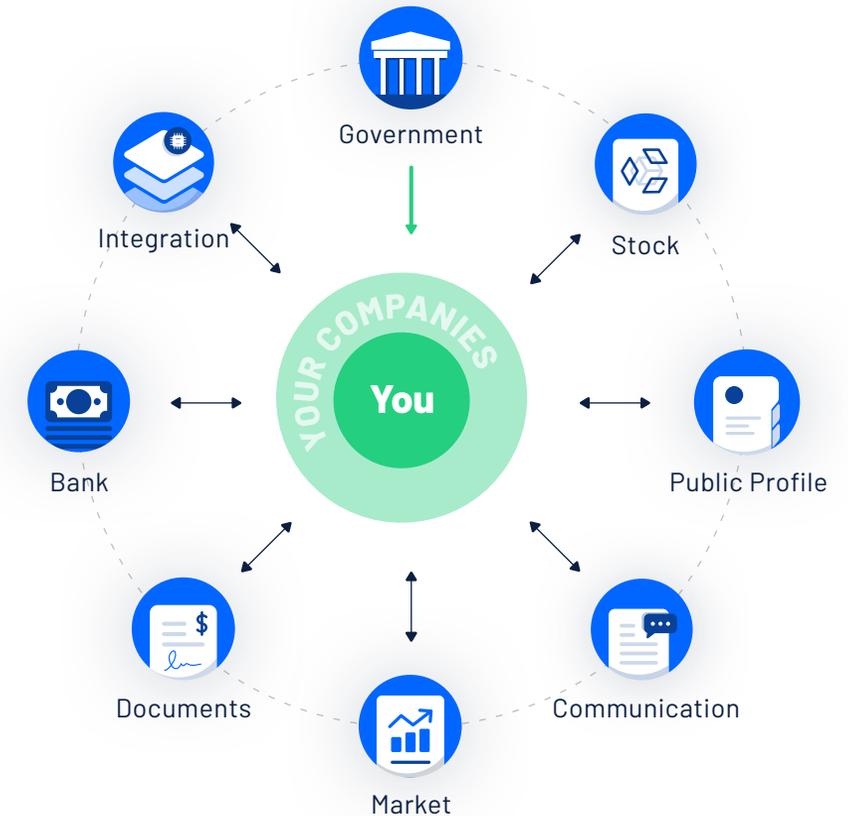

- ✓ Complete and updated overview of all your shareholdings in one place
- ✓ Easy interaction with companies you are associated with

A global platform to simplify and digitalize operational tasks for business owners

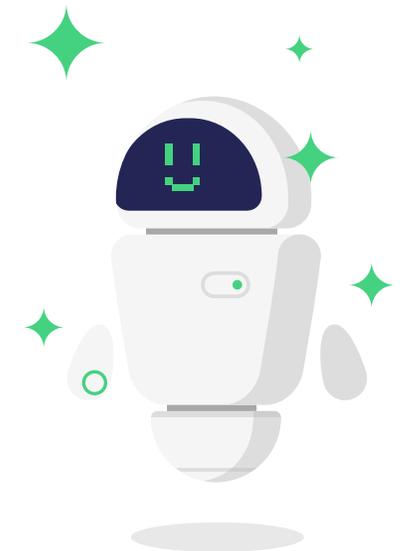

Unique value for customers

- ✓ Cap tables, transactions, shareholder-reporting and corporate actions
- ✓ Claim equity stakes, manage and monitor your financial portfolio
- ✓ Digital signing and handling of company documents
- ✓ Third-party integration

Milestones

- **The Factory** – accelerator winner spring 2017. Received pre-seed funding as well as phase 1 and 2 funding from Innovation Norway. Completed proof of concept/validation.
- Raised 10 **MNOK** in funding over two rounds from prominent angels investors and family offices.
- Launched a beta-version of the platform. Currently running with **400** real users.
- Chosen among **130** fintech companies to participate in the 2019 Copenhagen Fintech Accelerator run by Danske Bank, Nykredit and Accelerace.
- Admitted to the DNB NXT Accelerator run by StartupLab and DNB
- Signed our first sales contract!

My Assets

Personal Dashboard

Build your portfolio by claiming your assets in private companies. Monitor and manage your investments

Company News

Publish company news and share important documents with investors

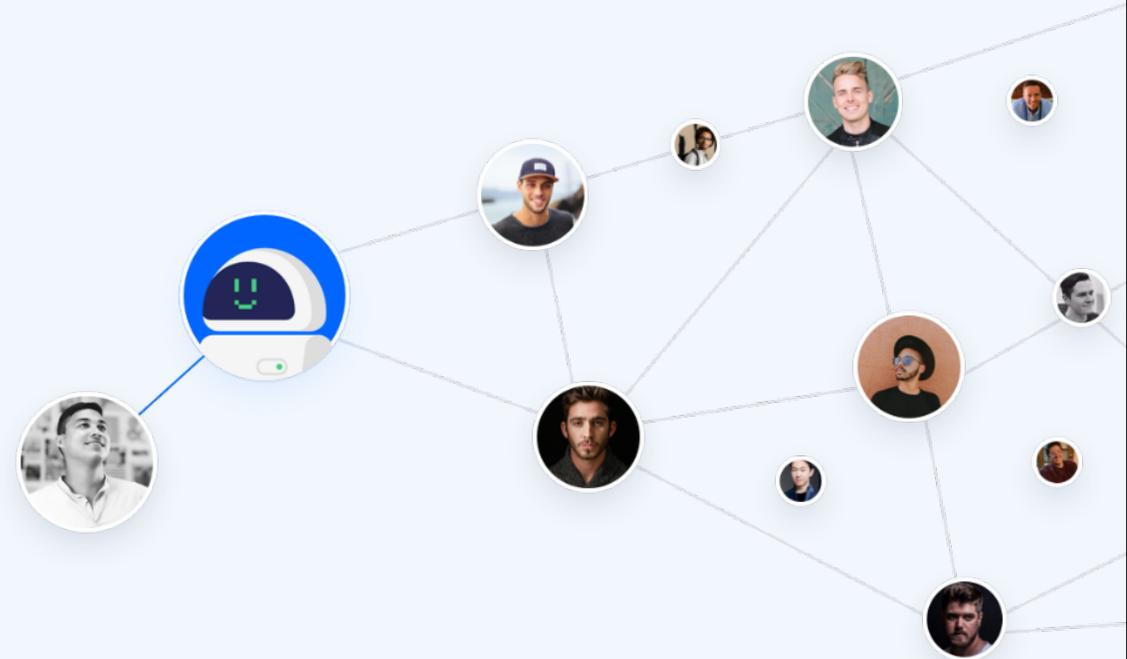

Documents

Create, sign and store legal documents on the platform

The Network Effect

Great for user growth, as investors claim shares in their companies, and as a result companies will also set up an account by invitation

Cap Table Management

Efficiency & Accuracy

The cap table is automatically updated with all transactions in the company

Security & Immutability

Verify all recorded transactions' authenticity by the blockchain network

Decentralization & Transparency

Eliminates the need for traditional centralized spread-sheets. Share your cap table as you desire

Costs

Saves time and (legal) costs

Market

Business administration services are carried out by in-house departments in larger corporations or by external advisors.

Corporate Lawyers

- Complex and non-complex services
- Billing by the hour
- 1800 NOK + vat and upwards per hour

Business Administration Services

- Incorporation of companies
- Captable management
- Government and shareholder reporting
- Share issues
- Share sales
- Other corporate actions and corporate secretary-functions

In-house Departments

- Adapted to internal clients

Accountants

- Non-complex services
- Mainly billing by the hour
- 800 NOK + vat and upwards per hour

Specialized Consultants

- Servicing selected client groups (e.g. shipping, real estate or family offices)

From Social Networks to Market Networks

- ✓ Connecting people with companies through claiming equity stakes and building portfolios
- ✓ SaaS workflows (e.g. share offerings, share transactions and digital signing and handling of company documents)
- ✓ Helping to build long-term relationships
