

Azure OpenAI Accelerator

Discovery Workshop

The Opportunity

An integrated, unified Azure OpenAI solution that synthesizes knowledge across multiple sources of information enabling you to experience content discovery through an intuitive chat interface.

“We formed our partnership with OpenAI around a shared ambition to responsibly advance cutting-edge AI research and democratize AI as a new technology platform. In this next phase of our partnership, developers and organizations across industries will have access to the best AI infrastructure, models, and toolchain with Azure to build and run their applications.”

Satya Nadella, Chairman and CEO, Microsoft.

OpenAI Workshop

Contact us or your Microsoft Representative to discuss your specific enterprise requirements and we will tailor a **complimentary** 1/2 day workshop to identify how to:

- Create a knowledge assistant that seamlessly traverses all of your enterprise information
- Establish governance processes to uphold confidentiality and privacy

Azure OpenAI Accelerator

Discovery Workshop

The Solution

BizData's experienced team of AI and Data Integration specialists will help you implement a production-ready environment that enables staff across your organisation to use a GPT powered AI assistant, trained on your own private corporate knowledge that remains secure within your network.

This unique solution introduces a centralised metadata catalogue that allows you to:

- Curate information from any data source across any platform
- Classify, segment and secure corporate information
- Appropriately govern information discovery across your enterprise

How it Works
