

INTRODUCTION TO BJSS AZURE MIGRATION

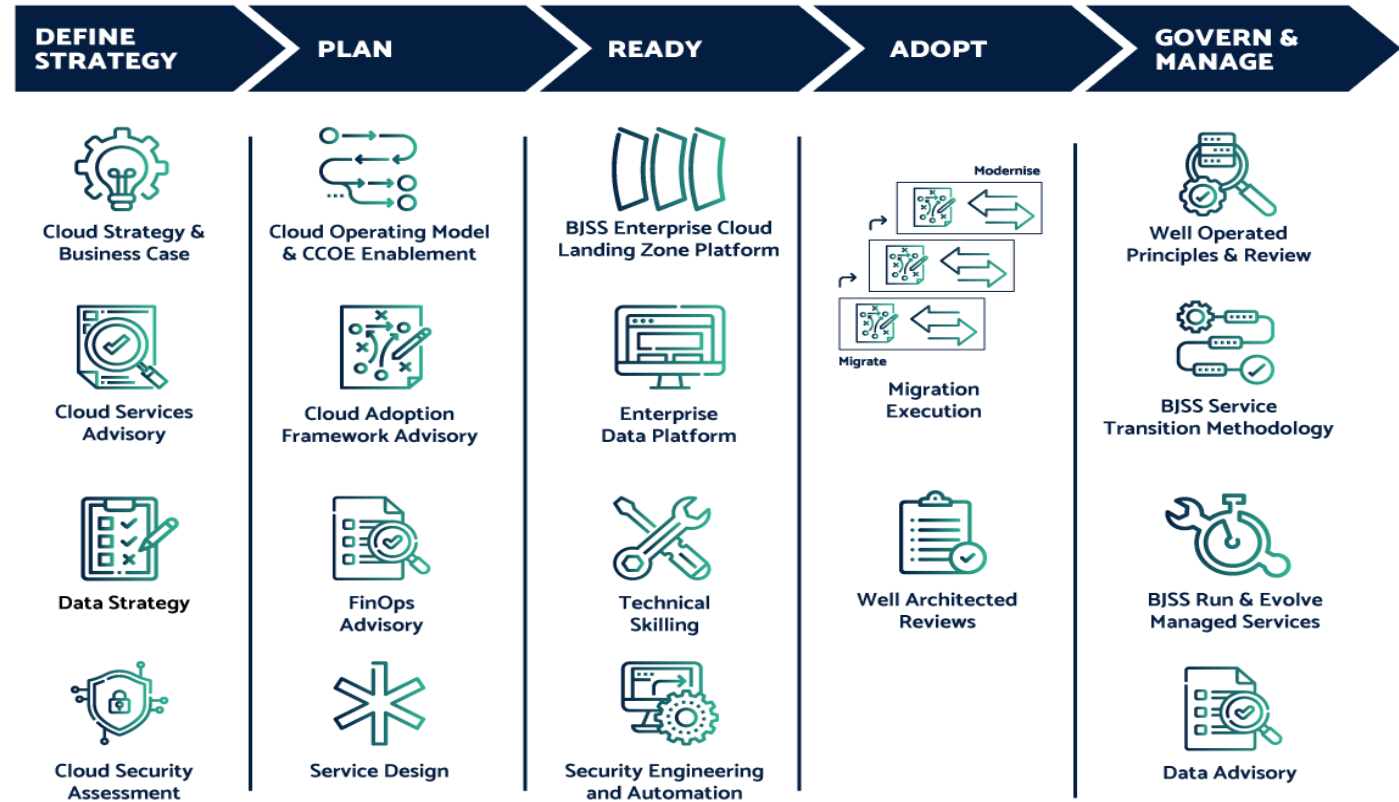

Cloud Migration Services

BJSS APPROACH TO AN ENTERPRISE MIGRATION TO AZURE

BJSS CLOUD MIGRATION STAGES AND ENGAGEMENTS

- > BJSS is an Azure Cloud Adoption Framework (CAF) Ready partner
- > BJSS is an Azure Migration and Modernisation (AMMP) partner.
- > We offer a Cloud Migration Engagement Framework to support you at any stage in your Azure migration journey.

Enterprise Agile® and Digital Transformation

BJSS CLOUD MIGRATION STAGES EXPLAINED

Define Strategy

The cloud delivers fundamental technology benefits that can help your enterprise execute multiple business strategies. To help you realise this BJSS will start by working with you to define and document your cloud strategy outlining the role of cloud in your organisation and not just a plan to move everything to the cloud.

Plan

A cloud adoption plan converts your strategy document into an executable plan. BJSS will create a detailed plan for you to determine what cloud adoption means to your organisation, understand how key stakeholders benefit, establish the best approach and operating model, and drive clarity to guide your organisation's change management during your cloud migration.

Govern & Manage

We have a proven methodology for service transition to a Modern Managed Service that blends the needs of your organisation with DevOps principles while retaining proven ITIL ways of working, giving you total confidence of delivery. BJSS have expertise and experience in all aspects of the systems development lifecycle, we can work with you to shape the user experience of the new cloud managed service and transition it into a live state.

Ready

We address gaps in your organisation's readiness that were uncovered in the Plan phase, with a focus on building your baseline environment, a cloud landing zone, driving operational readiness, and developing your teams' cloud skills providing the foundations, processes and tools needed to get your cloud services up and running in a secure, consistent and compliant environment.

Migrate & Modernise

We will create a migration backlog with sufficient details to support key activities: application architecture, prioritisation, estimation, and user acceptance criteria. For each application in scope for migration we will design, migrate and modernise, and finally validate it is Well Architected in adherence to cloud best practice.

BJSS USES THE AZURE GOVERNANCE FRAMEWORK FOR BEST PRACTICE IMPLEMENTATION

- > BJSS is a **certified Azure CAF Ready** partner.
- > We use the Azure governance framework to provide you with an enterprise scale landing zone with the necessary guardrails built-in.
- > We can apply appropriate policies in the code and build operational processes to help monitor violations as part of operational maturity.
- > This approach allows accelerated delivery, whilst following a formal framework for implementation.

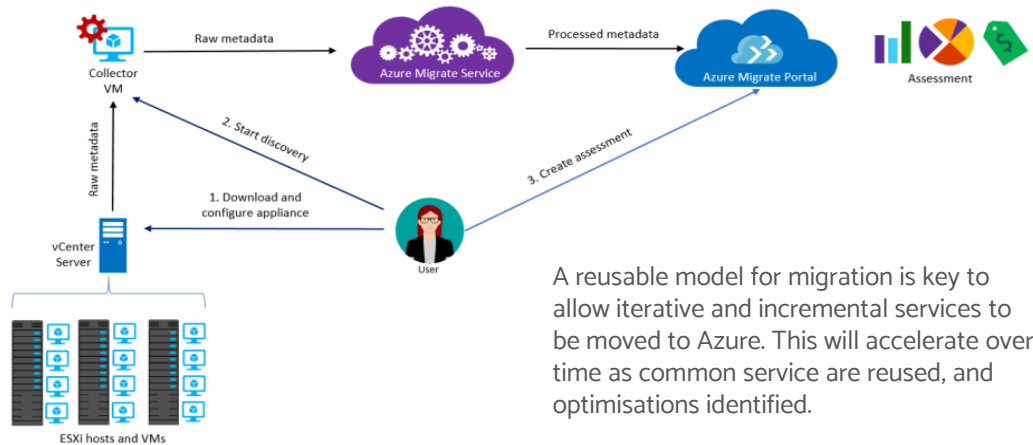

USING AZURE MIGRATION TOOLS TO SPEED THE MIGRATION

BJSS have extensive experience in using native Microsoft tooling to build reusable and iterative wave of migration

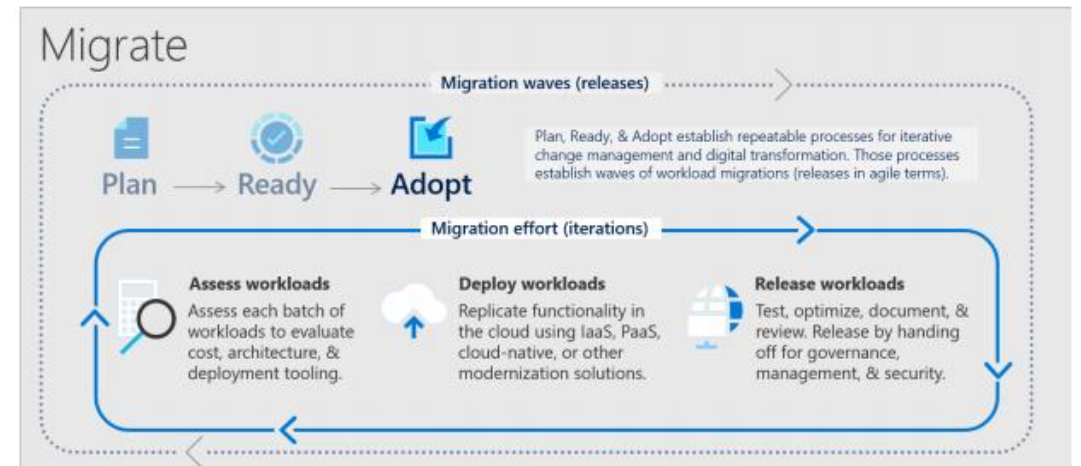

Reduce build and deployment times, provide delta releases for iterative delivery realising the full benefits Azure offer

Reusable & Extendable Approach

A reusable model for migration is key to allow iterative and incremental services to be moved to Azure. This will accelerate over time as common service are reused, and optimisations identified.

Alignment with Microsoft Standard Migration Model

ABOUT BJSS

THE LEADING TECHNOLOGY & ENGINEERING CONSULTANCY

1,900+

Talented people working together on complex projects.

15

Locations across the UK, USA, Europe and Australia.

>80

Active engagements within large enterprises.

Six tightly-integrated services, all underpinned by Digital Transformation:

Technology & Engineering

Cloud & Platform

Managed Service

Data & AI

Strategy

Design

Delivered by Enterprise Agile

Trusted by our 80 active clients, we collaborate to deliver complex, innovative technology, engineering and industry solutions that millions of people use every day.

Energy

Financial Services and Insurance

Health & Social Care

Public Sector

Retail & Consumer Markets

BJSS & OUR LOCATIONS

We operate offices across the **Europe, US, UK** and **Australia**, with **1700 employees**.

With the **Queen's Award for Innovation**, our proven delivery track-record and our agile approach, our clients trust us to solve their most complex technology challenges.

Underpinned by...

- > Digital Transformation

DIFFERENT FROM OTHER FRAMEWORKS

- > Built on >27 years of delivery experience
 - > Three major updates since 2008
 - > Constant learning
 - > BJSS Enterprise Agile is itself a BJSS Enterprise Agile delivery
- > Not prescriptive in application
 - > Works best with client collaboration
 - > Adapts to other frameworks
 - > Adapts to varying levels of Agile maturity
- > Promotes continuous delivery
- > We believe this approach can help Rare on their Cloud journey

OUR CLIENTS

We're trusted to deliver by some of the world's leading organisations across the Financial Services, Retail & Consumer Markets, Public Sector, Health & Social Care and Energy Sectors.
