Azure

Specialist
Infra and Database Migration

- Mentioned in Gartner's Market Guide for Public Cloud Managed & Professional Services, Asia/Pacific 2022
- CRN recognition in MSP500 list in the Pioneer 250 category for 2022
- Ranked 72 in Top 100 Vertical Market MSPs List 2022

Azure Well Architected Review - Overview

Blazeclan team of certified Azure experts will help you assess & optimize your Azure environment through a Well-Architected review in just 4 Weeks. The tested & proven methodology will be customized to enhance your business outcomes & overall results.

OBJECTIVES

- **ASSESS** infra as per Well Architected Framework
- **IDENTIFY** Implementation Challenges & Issues
- **UNDERSTAND** Improvement Areas / Requirements
- **IMPLEMENT** Industry Best Practices
- **ENHANCE** Security & Compliance

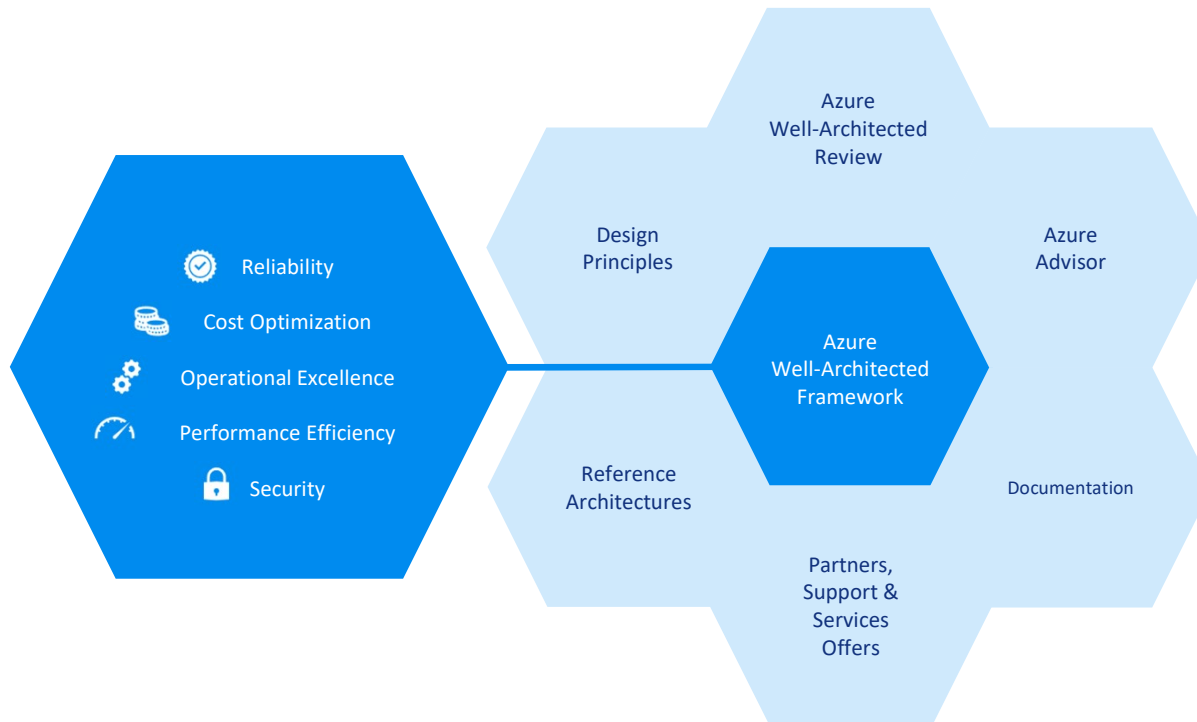

BENEFITS

- **SAVE** Cost with Rightsizing & Right Selections
- **IMPROVED** Performance, Reliability & Scalability
- **OPTIMIZED** Resources with Tailored Recommendations
- **ALIGNED** People, Processes & Technology
- **EVOLVE** Business with Continuous Improvement

This service has been designed to build workloads as per the Well-Architected Framework pillars i.e., Operational Excellence, Security, Reliability, Performance Efficiency, Cost Optimization, and Sustainability aligning with industry best practices.

Azure WAR Framework

```
mirror_mod.use_x = False  
mirror_mod.use_z = False  
if _operation == "MIRROR_Y":  
    mirror_mod.use_x = False  
    mirror_mod.use_y = True  
    mirror_mod.use_z = False
```

Guided by industry-leading best practices & standards, we're committed to elevating the dependability, scalability, & economic efficiency of your cloud infrastructure.

This comprehensive assessment is your pathway to an optimized Azure environment that exceeds the highest standards of performance & security while keeping your costs in check.

Blazeclan's Azure WAR Approach

The Azure Well-Architected Review has been developed to guide & help Cloud Architects build secure, high-performing, resilient, and efficient infrastructure for their applications.

Activities

- The infrastructure scanning will be performed using Blazeclan's IP Cloudlytics tool.
- Cloudlytics is a Cloud-driven asset monitoring and reporting tool

- The Well Architected tool will access and review the infrastructure. It will provide reports on operational excellence, security, reliability, performance efficiency and cost optimization

- Based on the finding/issues, Blazeclan will provide recommendations as part of the WAR engagement

Azure Virtual Desktop (VD) – Approach

Week 1

Kick off & Discovery

- Kick off meeting
- Identify stakeholders
- Set Workshop expectations with teams
- Workshop with Business Team
- Workshop with Infra/App/DB teams
- Workshop with security & network team
- Understand existing Landscape

Week 2

Review & Assess

- Existing Azure architecture against Azure WA pillars
- Existing App workflows & processes
- Existing Network & Security configuration.
- Current Database implementation
- Security processes & incident management
- Account & Billing Alerts on Consumptions

Week 3

Validate & Recommend

- Best storage solution for durability, availability & security.
- Mechanism to reduce Azure resource cost
- Arch optimization findings for high availability & scalability
- Arch best practices & parameters
- Subnets & VPC Design & Config.
- Validate server sizing & utilization parameters
- Validate Prod & Non-Prod accounts

Week 4

Reports & Remediations

- WA Review Report with Short-Term, Mid-Term & Long-Term Goals & Details
- Cloudlytics Report with automated best practice checks
- Documentations on all findings & recommendations
- Apply remediations for WAR assessment findings
- Monitor post remediations
- Handover & Sign-Off
