Impactful threat assessments in 30% of the time[1]

Save hours searching for information. Access near real-time updates and expert commentary on disease threats that eliminate the elements of surprise and guesswork. Be empowered to act quicker, more effectively, and more confidently with everything you need to know in one place.

Anticipate global outbreaks

Be the first to know of high-concern global disease activity in near real-time with alerts from our AI-powered 24/7 disease surveillance engine.

Assess risk at the origin location

Understand the potential magnitude and spread of an emerging outbreak with expert commentary and rich disease, environmental, and demographic risk indicators.
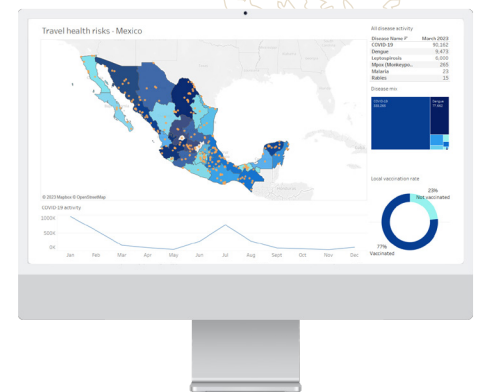

Assess risk to any location of interest

Calculate the likelihood of an outbreak spreading to any global location of interest, including which regional ports are at highest risk of importation with ready-to-use air travel intelligence.

Act as new information emerges

Remain up-to-date as the situation evolves with timely and contextualized updates from our outbreak intelligence platform.

> "
> [BlueDot's] quantitative information helped us persuade our officers of the need for immediate action… the tools BlueDot provided made the risk more visible."
>
> – DR. HAO-YUAN CHENG, TAIWAN CENTERS FOR DISEASE CONTROL

[1] Assumed 20 analyst hours to complete threat assessment with similar quality and scope possible via BlueDot in 6 hours

Combining clinical, epidemiology, and data science expertise to be the leaders in infectious disease intelligence

Critical disease event surveillance

Never be surprised again with the world's fastest and most comprehensive outbreak intelligence platform

Enhanced risk analysis toolkit

Go deeper on the drivers of disease spread, burden, and impact to make high-stakes decisions with confidence

Predictive intelligence

Prepare for next season and beyond with credible and tested continuous forecasts of respiratory and mosquito-borne illnesses

Protecting the lives of over 393 million global citizens
