Boardwise.

Your Way of Board Management

Boardwise: Efficient Board Management meets GRC

Boardwise was **developed in the board offices** of various DAX companies, including Axel Springer, E.ON, and Henkel, as a solution for more efficient meeting management. It accelerates the entire process of planning, conducting, and following up on meetings, and is the only provider to **integrate directly into Teams, Outlook, and SharePoint** as an app. Boardwise is used across industries in board meetings, supervisory board meetings, as well as in other meetings, independent of the C-level.

Features
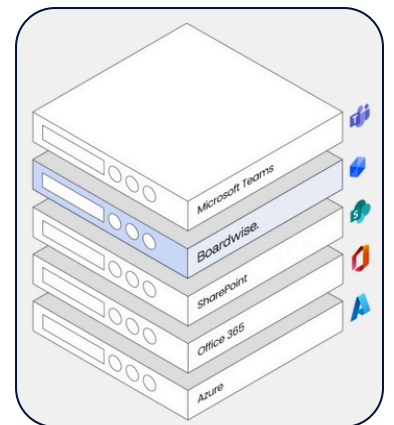

Governance, Risk & Compliance

- Implementation of the business judgement rule in the audit log
- Internal control system via decisions and orders
- Reduced compliance risks through standardised queries and processes

Efficiency & Collaboration

- Integration into the M365 environment
- Dashboards and resolution lists
- Questionnaires
- circular resolutions
- customizable AI-function for minutes

Microsoft Preferred Solution

Boardwise is the Microsoft preferred solution, GDPR-compliant and already in use in the BaFin environment. Our regular OWASP tests ensure your data protection.
