

Enterprise Security Operations: Defender XDR and Sentinel SIEM

About Bonelli Systems Security Operations:

Bonelli Systems is a 4x Microsoft Solutions Partner delivering enterprise security operations for organizations from 50 to 500,000+ identities. We deploy complete Defender XDR suites, integrate Sentinel SIEM/SOAR, build SOCs,

What we offer

We deploy the complete Microsoft Defender XDR suite (Endpoint, Identity, Office 365, Cloud Apps) integrated with Sentinel for SIEM/SOAR. Engagements include SOC buildout with custom detection rules, SOAR playbooks via Logic Apps, purple-team exercises, vulnerability remediation pipelines with SLA tracking, and CIS Benchmark hardening. We build secure Azure environments including airgapped architectures with segmented vNETs for business continuity. Our proprietary assessment platform scans 11,000 data points against 24,000 rules. Clients include enterprise organizations across finance, energy, healthcare, and professional services sectors.

What our customers are saying

"Bonelli Systems deployed our full Defender XDR and Sentinel stack, built SOAR playbooks, and hardened our environment to CIS Benchmarks. Our security posture transformed."

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
