Student Attendance & School Admin

We are delighted with your interest in our Anseo Attendance and Admin systems.

With 21 years experience in Irish schools we continue to save time and increase accuracy of record keeping across the country.

We believe that trusting students to share responsibility for their own attendance recording will improve student's individual roll book records while preparing their mindset for college and later, their professional careers.

We believe that Anseo has the flexibility and functionality to allow the college to implement and enhance it's strategy for school attendance 2023-2024.

I look forward to exploring how Anseo can benefit you in your College.

About Anseo

The Anseo suite of products has been designed and developed specifically for Irish schools and colleges. Since 2000, through partnership with schools and colleges the system has continually evolved to ensure easy integration into school life and systems already deployed.

2023 is the start of the natural development cycle and we have already begun working with all schools in enhancing the system further with new tools and a modern user experience.

Benefits

- Saves Time
- Populate attendance immediately to Student MIS.
- Eliminate Paperwork, Class Disruption and Follow-up
- Immediate access to Roll Call first thing each morning
- Increased Accuracy
- Proactively analyse trends in absenteeism & punctuality
- Auto Flag for students with declining performance and students flagged for extra monitoring
- Health & Safety:
 - Who is in
 - Who has left (Scan Out)
 - Full Audit trail of entry and exit

How it Works

Record

- Each Student registers their attendance on entry by scanning their card
- Student Data instantly available in Anseo and synced to Student Information System
- Scan out with reason. e.g. Medical Appt, Home Sick, School Activity

Collaborate

- Set up accounts for Year Head, Tutor or Teachers
- Automatically store attendance records on Student Information System

Communicate

- Text Message to Parents. Automatic if required
- Send messages to ancillary groups (Teaching Staff, Sports team, BOM etc.)
- End of Term report card on attendance

Analyse

- Top Attending, Top Absentees, Most Lates
- Compare by Class, Year, Day of Week
- Identify Students requiring intervention. Students will be listed on Home page.
- Set Policies for weekly, monthly or annual levels for attendance, absenteeism or punctuality

Student ID Cards

- Custom Design
- Laminated for durability and print quality
- Accessories available including Lanyards, Card Holders, Card Reels etc.
- 2 day Delivery for Reprints

Bool Technologies design and produce identification cards to the specific requirements of your school. School crests, slogans, colours etc. can all be incorporated onto the card. During the production process, we take photos of all your students and provide you with these photos for use with Anseo and your student admin system.

Based on RFID technology, cards are produced to the highest standards to ensure reliability and durability within the school environment for the student's lifetime in the school.

RFID allows the card to be read in proximity of the card readers, therefore the student does not have to remove the card from a wallet, school journal or bag. The card can easily be integrated with other systems like multi function printing, access control, cashless catering and much more.

Anseo in Your School

STEP 1: PHOTO TAKING & CARD DESIGN

Once card designs and samples are approved Bool Technologies will print the cards.

STEP 2: INSTALL CARD READERS

STEP 3: CONFIGURE SOFTWARE AND LINK TO SCHOOL MIS

Anseo software will be configured to meet school bell times and how the college operate attendance management.

STEP 4: BASIC TRAINING

Can be organised as per the college's requirements e.g. Group training can be provided for School Management, Year Heads, Class Tutors....

STEP 5: SYSTEM REVIEW & ADVANCED TRAINING

To ensure the system is saving time and operating to the college's desired requirements we will call again and evaluate. We will also provide additional training where required on some advanced features.

What we do?

Hardware

Card Readers will be installed at suitable locations and can be automatically set to accept scans only at certain times of the day.

1 Device per every 250 Students would be a general recommendation.

Installation

A Typical Installation will take between 3 - 5 days.

Training

Basic & Advanced Training are provided on site. These sessions can be divided into groupings for Admin, Year Heads & Teaching Staff

After Sales Service

Service desk is operated from 8am to 5pm Monday to Friday.

All hardware and Software can be supported remotely and a 48 hours on site response time is included.

Admin Systems

Book Rental

<https://books.anseo.ie>

Easily assign and track items under your book rental scheme which eliminates costs associated with lost or damaged books.

- Save Money and ensure that all books in your Book Rental Scheme are allocated, tracked and returned
- Save Time with Automatic Generation of Student Book Lists
- Use with Barcodes to track individual copies
- Include items like calculators, iPads etc.

Library Management

Automatically integrates all students' information from Facility with a system to track items in your school library.

- Keep track of all assets in your library (Books, Journals, DVD, CD etc.)
- Operate with ISBN or Barcode
- Overdue and Reading List Reports
- Easily Integrated with Student Cards to cut down time borrow and return.
- View Student reading history
- Auto Catalogue: Scan ISBN to retrieve the author, title etc. No need to type all details.
- Works with any barcode scanner.
- Can be accessed from anywhere on the school network.

New for 25

What Others Say

"Students like the idea of having an ID card as they attach a certain status to it, feeling like a university student. Businesses in the community have also welcomed the use of the student card outside of the school for identification purposes. The system has cut down on the workload of tutors and class teachers and is very effective for tracking punctuality and attendance. We are very satisfied with the Anseo Time & Attendance system."

Castleknock Community College

"Anseo has benefited our school in the following ways:

- Improved Punctuality before 9am
- Reduced the office workload especially dealing with accumulated information
- Made Attendance\absentee tracking much easier

We are very satisfied with the system."

Abbey Community College, Waterford

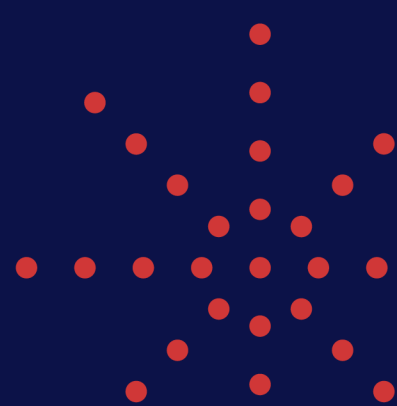

Some Schools in your Area using Anseo

St Oliver's Community College

Beaufort College

O'Carolan College

Dunshaughlin Community College
