See and stop threats before they cause harm, with **SIEM reinvented** for a modern world. Azure Sentinel is your birds-eye view across the enterprise. Put the cloud and large-scale intelligence from decades of Microsoft security experience to work. Make your threat detection and response smarter and faster with artificial intelligence (AI).

Azure Sentinel

Born In The Cloud can help you deploy your first instance of Sentinel with all your requirements in mind.

Together, we can build a proper cloud-native SIEM experience, all on a major cloud provider; Microsoft Azure.

VISIT US TODAY
www.**borninthecloud**.com

Invest in security, not infrastructure setup and maintenance with first cloud-native SIEM from a major cloud provider. Never again let a storage limit or a query limit prevent you from protecting your enterprise.

COLLECT data at cloud scale—across all users, devices, applications, and infrastructure, both on-premises and in multiple clouds.

DETECT previously uncovered threats and minimize false positives using analytics and unparalleled threat intelligence from Microsoft.

INVESTIGATE threats with AI and hunt suspicious activities at scale, tapping into decades of cybersecurity work at Microsoft.

RESPOND to incidents rapidly with built-in orchestration and automation of common tasks.

borninthecloud

say hello to the new SIEM

Azure Sentinel is a cloud-native security information and event manager (SIEM) platform that uses built-in AI to help analyze large volumes of data across an enterprise—fast. Azure Sentinel aggregates data from all sources, including users, applications, servers, and devices running on-premises or in any cloud, letting you reason over millions of records in a few seconds. It includes built-in connectors for easy onboarding of popular security solutions.
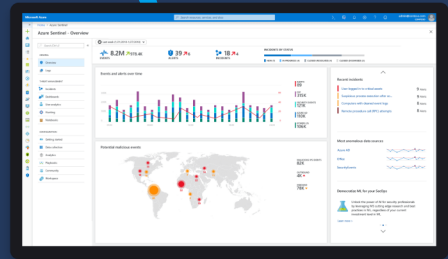

A MATCH FOR ALL YOUR TOOLS

Connect to and collect data from all your sources including users, applications, servers, and devices running on-premises or in any cloud. Integrate with existing tools, whether business applications, other security products, or home-grown tools, and use your own machine-learning models. Optimize for your needs by bringing your own insights, tailored detections, machine learning models, and threat intelligence.

borninthecloud

FREE OFFICE 365 DATA IMPORT

Connect with data from your Microsoft products in just a few clicks, import Office 365 data for free, and analyze and draw correlations to deepen your intelligence.

LIMITLESS CLOUD SPEED AND SCALE

Invest in security, not infrastructure setup and maintenance with first cloud-native SIEM from a major cloud provider. Never again let a storage limit or a query limit prevent you from protecting your enterprise. Start using Azure Sentinel immediately, automatically scale to meet your organizational needs, and only pay for the resources you need.

AI ON YOUR SIDE

Focus on finding real threats quickly. Reduce noise from legitimate events with built-in machine learning and knowledge based on analyzing trillions of signals daily. Accelerate proactive threat hunting with pre-built queries based on years of security experience. View a prioritized list of alerts, get correlated analysis of thousands of security events within seconds, and visualize the entire scope of every attack. Simplify security operations and speed up threat response with integrated automation and orchestration of common tasks and workflows.

BORN IN THE CLOUD CAN HELP YOU START USING AZURE SENTINEL, ALLOWING YOU TO VIEW AND ANALYZE YOUR AGGREGATED DATA, AND GET YOU STARTED HUNTING SO YOU CAN PREEMPT ATTACKS
