

# THE REVOLUTIONARY CHATBOT

DESIGNED TO TRANSFORM YOUR  
WORKPLACE EXPERIENCE.

Botsa: Beyond a chatbot, an **intelligent assistant** designed to enhance internal communications and streamline processes, making information and services instantly accessible.

### Comprehensive Knowledge Base

Botsa comes pre-loaded with your company's policies and procedures, turning it into a one-stop solution for the most common employee queries.

### Seamless Integration with Microsoft Teams

Designed to integrate effortlessly with Microsoft Teams, Botsa offers a familiar, user-friendly interface that employees can access with ease.

### Smart Escalation

For queries that need a human touch, Botsa smartly escalates and reroutes to human experts, ensuring comprehensive support.

### Advanced Analytics

Track the most common queries to identify areas for further automation and improvement.

### Transactional Capabilities

Extend Botsa beyond Q&A. With its ability to integrate with internal systems, it can perform transactional tasks without needing APIs.

### Multi-Platform Accessibility

Extend Botsa's reach through platforms like WhatsApp and others, enhancing accessibility and user engagement.
