

Is cloud right for you? We will take an in-depth look at your business to evaluate the benefits and risks of a digital transformation.

### What's Included

#### Functional Evaluation

- High-level review of on-premise business processes
- High-level assessment of relevant D365 functionality
- High-level review of your ISVS and customizations

#### Technical Evaluation

Assess the following areas for complexity and risk:

- Integrations
- Database
- Custom Code
- Processes
- Reporting
- Licensing

#### Approach Analysis

Assess and recommend the type of migration best suited for your needs:

- Lift and shift
- Hybrid
- Reimplementation

This is only an assessment and does not include the cost of any resulting implementation or support.
