

Dynamics Discovery by Braintree: Simplify your Dynamics 365 evaluation process in three easy steps

Overview

Dynamics Discovery is an obligation-free service by Braintree, designed to help business leaders determine if Microsoft Dynamics 365 Business Central (BC) is the right fit for their operations. By eliminating the inefficiencies and costs associated with traditional evaluation methods, Dynamics Discovery delivers fast, data-driven insights tailored to your business needs.

Challenges in traditional evaluations

- Time-Consuming:** Traditional evaluations often take weeks or even months, delaying critical decisions.
- High Costs:** With consultants, workshops, and executive involvement, expenses can cost upwards of R90,000.
- Business Disruptions:** Executives and teams are distracted from their primary tasks by interviews and meetings, negatively affecting productivity.
- Unclear Outcomes:** The process can feel scattered, often leaving business leaders unsure of whether the recommendations align with their goals.

How Dynamics Discovery eliminates the challenges

Fast and Efficient: Dynamics Discovery cuts evaluation time from weeks to minutes. Answer a short series of business-related questions, and receive an easily-actionable, detailed report.

Minimised Disruptions: No need for extensive meetings or executive involvement. Your team can stay focused on core operations.

Cost-Effective: Avoid the commitment of traditional evaluations. Dynamics Discovery is obligation-free, allowing you to save on consulting fees while still receiving a comprehensive analysis.

Localised for South Africa: Dynamics Discovery considers the market dynamics of each client, offering recommendations that address your challenges and opportunities.

Tailored and Actionable: The final report is customised to your business context, comparing Business Central's capabilities to your unique operational needs. You'll receive insights on functionality, scalability, costs, and project scope, enabling confident decision-making.

Key Benefits

| | |
|--|---|
| Save Time: Receive results in minutes, not weeks. | Save Money: Avoid the costs of consultants and long evaluations. |
| Reduce Risk: Ensure the recommended solution aligns with your business needs, avoiding costly missteps. | Plan Effectively: Gain insights into scalability and implementation scope, allowing you to future-proof your operations. |
| Make Data-Driven Decisions: Base your next move on clear, objective insights. | |
