**b**bravent

SmartDoc

Bravent SmartDoc automates the document reading process, extracting the information from the required fields and entering in your current application automatically.

SmartDoc

bravent

Do you want to transform your invoicing process?

What does it do?

Automatically extract key data from your documents (PDF, JPG) using Artificial Intelligence.

SmartDoc identifies, understands, and organizes information.
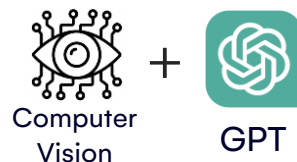

How does it work?

1. Read documents in:

PDF

2. Extract key insights with:

Computer Vision **+** GPT

What makes SmartDoc unique?

- **ADAPTATION:**
  Learns and adapts without the need to train models every time.

- **CONTEXTUAL INTELLIGENCE:**
  Extract data with contextual intelligence (not just OCR).

- **FLEXIBILITY:**
  Works even with invoices that change format.

- **SCALABILITY:**
  With a Basic Extension you can add triggers and integrations to extract data from different sources and introduce it databases, ERPs or custom systems.

About Bravent

As a global Microsoft IT partner, we offer customized solutions in AI, Data, BizzApps, Application Development, Modern Workplace, Infrastructure, and Security. With a strong international presence, we innovate in various sectors and support customers in the Americas, Europe and the Middle East.
