

BrickRed Systems

Data Loss Prevention Service

JANUARY 2025

What's your strategy for protecting and governing sensitive and business critical data?

- > Do you know where your business critical and sensitive data resides and what is being done with it?

- > Do you have control of this data as it travels inside and outside of your organization?

- > Are you using multiple solutions to classify, label, and protect this data?

What is Data Loss Prevention?

- Helps in **identifying potential data breaches** and stopping them before they occur.
- Ensures the **safety of sensitive information** such as personal data, financial information, intellectual property.
- Aids organizations in **complying with data protection laws** like GDPR, HIPAA, and others.
