Bricks+Agent

Australia's Leading Property Maintenance Platform

Maintenance. Simplified.

The most comprehensive solution for property maintenance ever developed and used by the leading real estate agencies across Australia.

Omni Channel Communication

Tenants and owners can use social media, SMS, automated email and phone as well as QR codes to log and approve maintenance requests.

Automated Compliance and Updates

Trades have their licence, insurance and ABN verified by our team with reminders sent to trades prior to expiry to update the documents.

Automated Invoice Processing

Invoices approved by the property managers are automatically synced into your property management software ready to pay.

Rules + Automation

The most comprehensive rules and automation engine featuring automated reminders as well as automated actions.

Integrations

Integrated into all leading property management and inspection platforms – making life a lot easier.

Business Intelligence

A complete set of BI and insights offered in the job posting process and to the organisation.

Access to Australia's largest trade network of trades between Bricks+Agent and the hipages networks.
