for  
chatbots and  
conversational  
agents

**Power Pages**  
for  
building secure,  
data-centric  
business websites

**Power BI**  
for  
data exploration,  
analytics, and  
reporting

**1000+ Data  
connectors**

**AI Builder**

**Microsoft  
Dataverse**

**Power Fx**

**Managed  
Environments**

# Why Business use Power Platform

With Power Platform, organizations can reimagine business, IT, and developer **culture** and elevate all employees.

Agility

Create rich apps, automations, and bots fast with AI Copilot and low-code tools.

Governance

View, control, and manage policies, usage, onboarding, ALM via Managed Environments.

Security

Built-in Identity and user management, DLP, encryption, compliance, and privacy.

Responsible AI

AI that is fair, reliable, safe, private, secure, transparent, accountable, and inclusive.

Pro Dev Friendly

APIs, Connectors, Custom Connectors, PCF controls, Azure DevOps, and Visual Studio support.

Accessibility

Build accessible and compliant apps easily for Windows, Web, iOS, and Android.

# How Business use Power Platform

## App Modernization

Update, rearchitect, and rebuild apps at scale and address backlog.

## Business Agility

Improve processes and experiences for core systems: SAP, Oracle, Salesforce.

## Accelerate Pro Development

Reduce time and effort in creating enterprise-grade apps.

## Enhance Employee Experience

Interact with business data with ease in Microsoft 365 and Teams.

## Empower Departments

Enable departments to solve business challenges with IT governance.

## Optimize Hyperautomation

End-to-end automation with RPA, DPA, AI, chatbots, more.

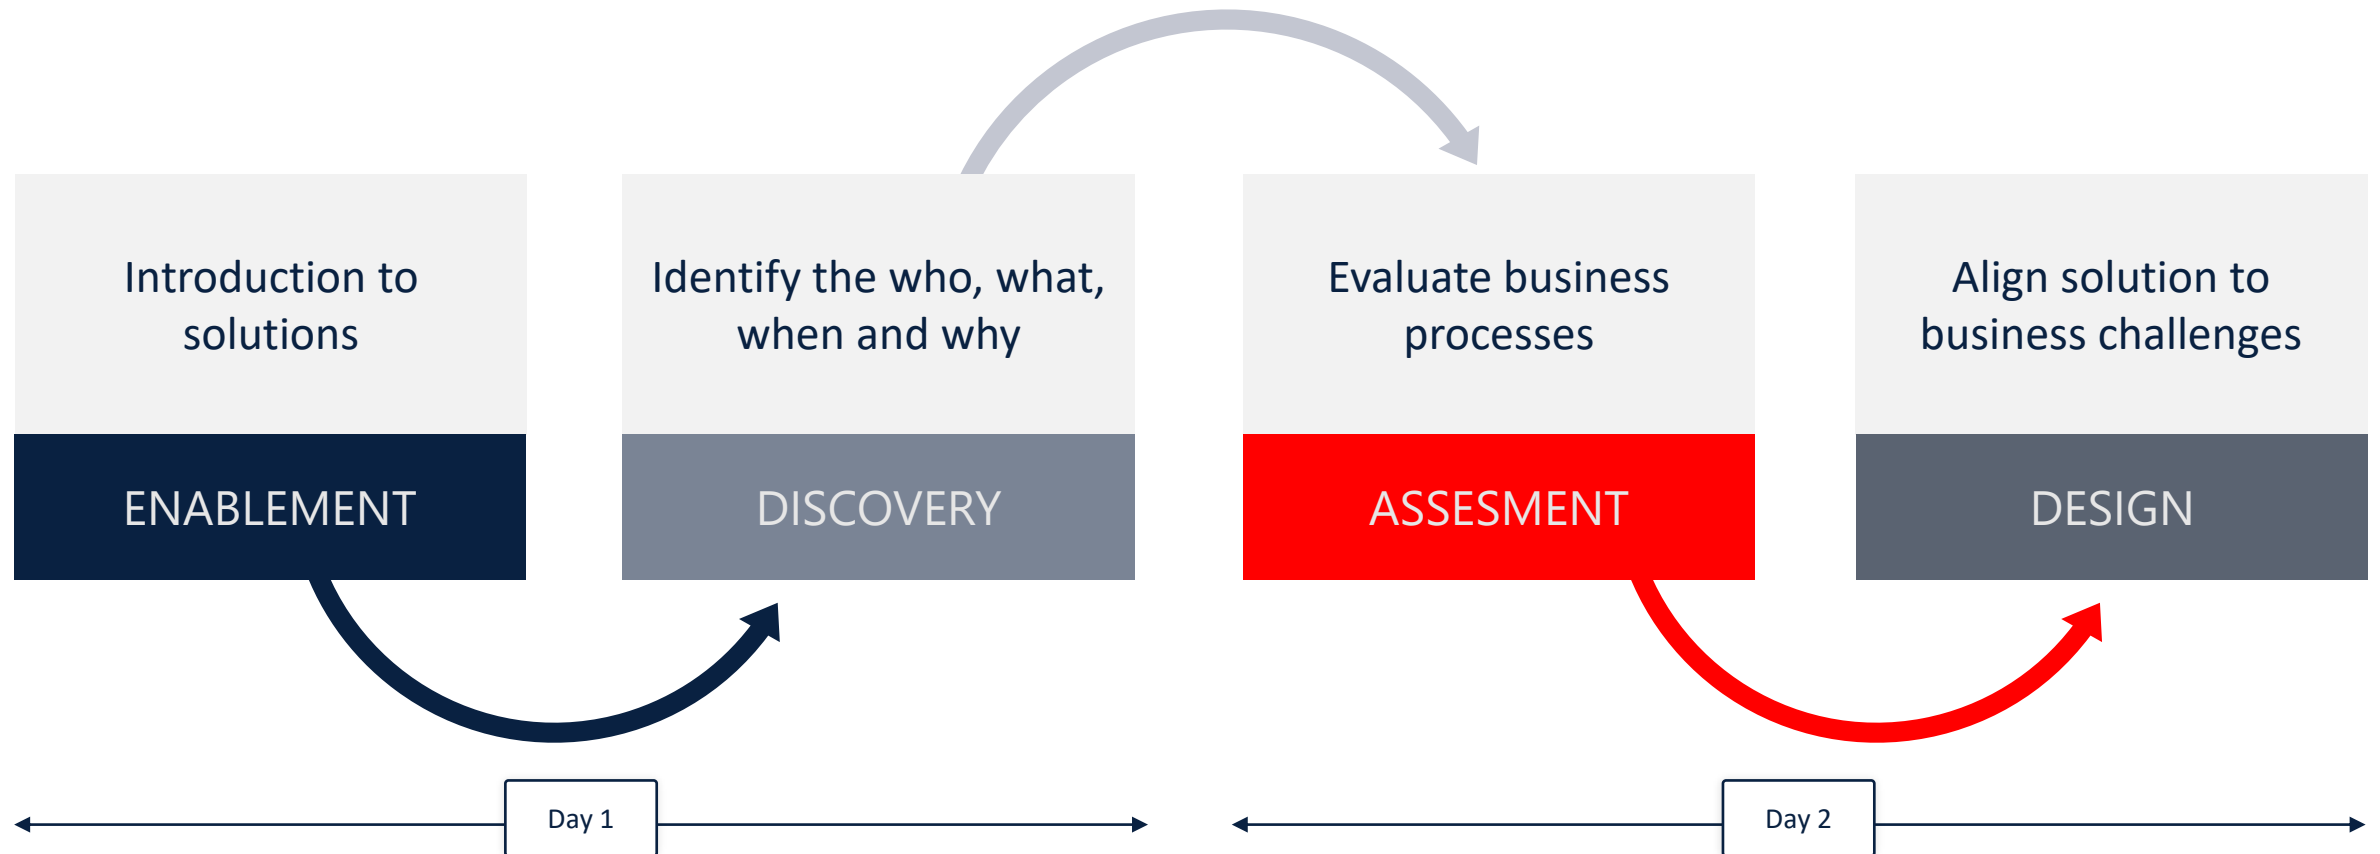

# BRINEL Power Platform Adoption | Assessment Journey

## 4 STEPS, 2 DAYS, 1 SOLUTION

Contact us today @:

[www.brinel.ro](http://www.brinel.ro)  
[cluj@brinel.ro](mailto:cluj@brinel.ro)  
[bucuresti@brinel.ro](mailto:bucuresti@brinel.ro)

## 4 STEPS, 2 DAYS, 1 SOLUTION

### Introduction to solutions

1

#### ENABLEMENT

- Light introduction to low code solutions suite from Power Platform
- In depth presentation of benefits and features
- View on how other organisation benefit from the solutions
- Enable AI in Power Platform

### Identify the who, what, when and why

2

#### DISCOVERY

- What are the organisation objectives
- Who are the user in the organisations
- What problems are needed to be solved
- When the solution needs to be up and running
- Why the business processes require optimisation

## 4 STEPS, 2 DAYS, 1 SOLUTION

### Evaluate business processes

3

### ASSESSMENT

- Map current challenges, technology landscape and business processes
- Explore your internal low-code capabilities and maturity model
- Conduct technical process optimization and automation assessments
- Evaluate business processes to consider where low-code solutions make sense

### Align solution to business challenges

4

### DESIGN

- Decide how low-code fits into your business
- Create conceptual and architectural design for low-code solutions aligned to your identified business challenges
- Build solutions around organization and user experience
- Create a governance strategy on expectations for solution, timeline and cost
