

About Us

Why choose Brookland Solutions as your Dynamics 365 partner? We look at things differently! Every business is unique, so we treat all our clients as unique, too. We take the time to understand your business, discuss your requirements and work out the best solution to exceed your expectations.

Brookland Solutions specialise in Dynamics 365 Business Central, so we know how to ensure your implementation is a success. However, we are there to work with you on more than just implementation. Our services include consultancy, training and support, so whatever your Dynamics 365 Business Central requirements, we are there to help.

We have been working with Microsoft solutions for over 20 years and have gained a wealth of experience from the projects undertaken. Our team comprises Microsoft-certified accountants, developers, consultants and industry specialists. Our main office is located in Surrey, with easy access to London, and we work with clients throughout the UK.
